

American Heart Journal

The international publication for the study of the heart and circulation

Editor in Chief: **DEAN T. MASON, MD** *San Francisco, Calif.*

Managing Editor: **LESLIE J. FLATT** *San Francisco, Calif.*

Editorial Assistant: **MARIE D. YOUNG** *San Francisco, Calif.*

Senior Manuscript Editor: **MAUREEN A. CONNOLLY** *St. Louis, Mo.*

EDITORIAL BOARD

Hugh D. Allen, MD, *Columbus*
Joseph S. Alpert, MD, *Tucson*
W. Gerald Austen, MD, *Boston*

Subject index*

A Accessory pathways; see Heart conduction system Acetylcholine

Attenuation of acetylcholine-induced vasoconstriction by L-arginine is related to the progression of atherosclerosis (Otsuji et al). 1995;129:1094-100

Aconitine

Microwave ablation of canine atrial tachycardia induced by aconitine (Rho et al). 1995;129:1021-5 (Prog. cardiol.)

Adenosine

Four- versus 6-minute infusion protocol for adenosine thallium-201 single photon emission computed tomography imaging (O'Keefe et al). 1995;129:482-7

Relation between diastolic left ventricular function and myocardial blood volume during adenosine-induced coronary hyperemia (Ren et al). 1995;129:696-702

Adrenergic beta receptor blockers

Angiotensin-converting enzyme inhibitors and β -blockers in long-term treatment of dilated cardiomyopathy (Regitz-Zagrosek et al). 1995;129:754-61

Time-series analysis of long-term ambulatory myocardial ischemia: effects of β -adrenergic and calcium channel blockade (Lambert et al). 1995;129:677-84

Aged

Inherited restrictive cardiomyopathy in a 74-year-old woman: a case of Fabry's disease (Hillsley et al). 1995;129:199-202 (Brief comm.)

Intensive home-care surveillance prevents hospitalization and improves morbidity rates among elderly patients with severe congestive heart failure (Kornowski et al). 1995;129:762-6

Allograft; see Transplantation, homologous

Ambasilide

Effects of the potassium channel blocking agent ambasilide on ventricular arrhythmias induced by acute myocardial ischemia and sympathetic activation (Stramba-Badiale et al). 1995;129:549-56

Amiodarone

Prediction of electrophysiologic study results in patients treated with amiodarone (Ferrick et al). 1995;129:496-501

Amlodipine

Amlodipine in chronic stable angina: results of a multicenter, double-blind, crossover trial (Ezekowitz et al). 1995;129:527-35

Amyloidosis

Thromboembolic complications in cardiac amyloidosis detected by transesophageal echocardiography (Willens et al). 1995;129:405-6 (Brief comm.)

Aneurysm

Angina caused by systolic compression of the left coronary artery as a result of pseudoaneurysm of the mitral-aortic intervalvular fibrosa (Parashara et al). 1995;129:417-21 (Brief comm.)

Angina, unstable

Detection of angina-provoking coronary stenosis by resting iodine 123 metaiodobenzylguanidine scintigraphy in patients with unstable angina pectoris (Tsutsui et al). 1995;129:708-15

Increased number of thromboxane A_2 -prostaglandin H_2 platelet receptors in active unstable angina and causative role of enhanced thrombin formation (Modesti et al). 1995;129:873-9

Spontaneous transient, inverted U waves as initial electrocardiographic manifestation of unstable angina (Jaffe and Boden). 1995;129:1028-30 (Brief comm.)

Angina pectoris

Amlodipine in chronic stable angina: results of a multicenter, double-blind, crossover trial (Ezekowitz et al). 1995;129:527-35

Angina caused by systolic compression of the left coronary artery as a result of pseudoaneurysm of the mitral-aortic intervalvular fibrosa (Parashara et al). 1995;129:417-21 (Brief comm.)

Prospective, randomized, placebo-controlled, double-blind, multicenter study of exercise with enoxaparin pretreatment for stable-effort angina (Fujita et al). 1995;129:535-41

Angiography; see Coronary angiography

Angioplasty

The history of interventional cardiology: cardiac catheterization, angioplasty, and related interventions (Mueller and Sanborn). 1995;129:146-72 (Curriculum cardiol.)

Increase of neutrophil adhesion and vasoconstriction with platelet deposition after deep arterial injury by angioplasty (Merhi et al). 1995;129:445-51

Angioplasty, balloon

Adenoviral mediated gene transfer to atherosclerotic arteries after balloon angioplasty (Landau et al). 1995;129:1051-7

Mechanism of balloon angioplasty in children with arterial stenosis assessed by intravascular ultrasound and angiography (Ino et al). 1995;129:132-8

Angioplasty, transluminal, percutaneous coronary

Bailout coronary stenting with 6F guiding catheters for failed balloon angioplasty (Urban et al). 1995;129:1078-83

Follow-up patency of side branches covered by intracoronary Palmaz-Schatz stent (Pan et al). 1995;129:436-40

Left main coronary thrombosis after radiofrequency ablation: successful treatment with percutaneous transluminal angioplasty (Hope et al). 1995;129:1217-9 (Brief comm.)

Limited value of exercise testing in the detection of silent restenosis after successful coronary angioplasty (Desmet et al). 1995;129:452-9

Long-term angiographic follow-up of lesions patent 6 months after percutaneous coronary angioplasty (Kitazume et al). 1995;129:441-4

Multicenter evaluation of the Strecker tantalum stent for acute coronary occlusion after angioplasty (Hamm et al). 1995;129:423-9

Natural antioxidants and restenosis after percutaneous transluminal coronary angioplasty (Godfried and Deckelbaum). 1995;129:203-10 (Brief comm.)

Seeding of intracoronary stents with immortalized human microvascular endothelial cells (Scott et al). 1995;129:860-6

Surgical coronary angioplasty for left main vasospasm (Sen et al). 1995;129:399-400 (Brief comm.)

Transradial artery coronary angioplasty (Kiemeneij et al). 1995;129:1-7

Angiotensin-converting enzyme inhibitors

Angiotensin-converting enzyme inhibitors and β -blockers in long-term treatment of dilated cardiomyopathy (Regitz-Zagrosek et al). 1995;129:754-61

Anomalous coronary artery; see Coronary vessel anomalies

Anomalous pulmonary venous connection; see Heart defects, congenital

Anti-arrhythmia agents

Chaotic atrial rhythm in children (Dodo et al). 1995;129:990-5

Effects of the potassium channel blocking agent ambasilide on ventricular arrhythmias induced by acute myocardial ischemia and sympathetic activation (Stramba-Badiale et al). 1995;129:549-56

Electrophysiologic effects of antiarrhythmic drug therapy in the prediction of successful suppression of induced ventricular tachycardia (Karagounis et al). 1995;129:343-9

Risk factors for the development of recurrent atrial fibrillation: role of pacing and clinical variables (Reimold et al). 1995;129:1127-32

Treatment of atrial ectopic tachycardia in infants 6 months old (Bauersfeld et al). 1995;129:1145-8

Antibodies, anticardiolipin

Diastolic dysfunction is a feature of the antiphospholipid syndrome (Hasnie et al). 1995;129:1009-13

Antioxidants

Myocardial neutrophil infiltration, lipid peroxidation, and antioxidant activity after coronary artery thrombosis and thrombolysis (Chen et al). 1995;129:211-8

Natural antioxidants and restenosis after percutaneous transluminal coronary angioplasty (Godfried and Deckelbaum). 1995;129:203-10 (Brief comm.)

Antiphospholipid syndrome

Diastolic dysfunction is a feature of the antiphospholipid syndrome (Hasnie et al). 1995;129:1009-13

Antithyroid drugs; see Thyroid antagonists

Aorta

Intermittent cyanosis from tricuspid obstruction resulting from aortic compression in hypertension (Shaw et al). 1995;129:394-9 (Brief comm.)

*January, pp. 1-210; February, pp. 211-422; March, pp. 423-630; April, pp. 631-840; May, pp. 841-1050; June, pp. 1051-1268.

Aorta, thoracic

Endocardiographic diagnosis of type B interruption of a right aortic arch (Geva and Gajarski). 1995;129:1042-5 (Brief comm.)

Penetrating atherosclerotic ulcer of the aortic arch resulting in extensive and fatal dissection (Benitez et al). 1995;129:821-3 (Brief comm.)

Protruding atheromas of the aortic arch in symptomatic patients with carotid artery disease (Demopoulos et al). 1995;129:40-4

Aortic arch; see Aorta, thoracic

Aortic coarctation

Balloon-expandable stent repair of severe coarctation of aorta (Suárez de Lezo et al). 1995;129:1002-8

Stent implantation for aortic recoarctation (Rosenthal et al). 1995;129:1220-1 (Brief comm.)

Aortic valve, pathology

Angina caused by systolic compression of the left coronary artery as a result of pseudoaneurysm of the mitral-aortic intervalvular fibrosa (Parashara et al). 1995;129:417-21 (Brief comm.)

Aortic valve insufficiency

Quantitation of aortic regurgitation by Doppler echocardiography: a practical approach (Dolan et al). 1995;129:1014-20 (Curriculum cardi.)

Arginine

Attenuation of acetylcholine-induced vasoconstriction by L-arginine is related to the progression of atherosclerosis (Otsuji et al). 1995;129:1094-100

Arrhythmia

Arrhythmias and conduction disturbances after coronary artery bypass graft surgery: epidemiology, management, and prognosis (Pires et al). 1995;129:799-808 (Curriculum cardi.)

Chaotic atrial rhythm in children (Dodo et al). 1995;129:990-5
Comparison of Chagas' heart disease to arrhythmogenic right ventricular cardiomyopathy (Rossi). 1995;129:626-9 (Editorial)

Effects of sotalol on the function of implanted pacemakers (Pool et al). 1995;129:1045-6 (Brief comm.)

Effects of the potassium channel blocking agent ambasilide on ventricular arrhythmias induced by acute myocardial ischemia and sympathetic activation (Stramba-Badiale et al). 1995;129:549-56

Postinfarction ventricular arrhythmias in children (Johnsrude et al). 1995;129:1171-7

Prediction of electrophysiologic study results in patients treated with amiodarone (Ferrick et al). 1995;129:496-501

Arterial embolism; see Embolism

Arterial occlusive diseases

Angiographic predictors of new coronary occlusions (Pétursson et al). 1995;129:515-20

Arteries

Distal embolization is common after directional atherectomy in coronary arteries and saphenous vein grafts (Waksman et al). 1995;129:430-5

Isolated myocardial bridges with angiographic milking of the left anterior descending coronary artery: a long-term follow-up study (Juillière et al). 1995;129:663-5

Regional and arterial localization of radioactive microparticles after local delivery by unsupported or supported porous balloon catheters (Wilensky et al). 1995;129:852-9

Arteries, injuries

Experimental directional atherectomy injury in arterial vessels: impact of trauma depth on cellular response (Gonschior et al). 1995;129:1067-77

Increase of neutrophil adhesion and vasoconstriction with platelet deposition after deep arterial injury by angioplasty (Merhi et al). 1995;129:445-51

Arteries, pathology

Giant left main coronary artery aneurysm initially seen as an acute coronary syndrome (Olson and Chamusco). 1995;129:1216-7 (Brief comm.)

Left main coronary artery disease: assessment, diagnosis, and therapy (Bergelson and Tommaso). 1995;129:350-9 (Curriculum cardi.)

Mechanism of balloon angioplasty in children with arterial stenosis assessed by intravascular ultrasound and angiography (Ino et al). 1995;129:132-8

Arterio-arterial fistula

Coronary to pulmonary artery fistula detected by transthoracic echocardiography (Kaplan and Redberg). 1995;129:839-40 (Brief comm.)

Arteriography, coronary; see Coronary angiography

Aspirin

Effect of aspirin use on death and recurrent myocardial infarction in current and former cigarette smokers (Fitch et al). 1995;129:656-62

Atherectomy, coronary

Coronary artery morphologic features after coronary rotational atherectomy: insights into mechanisms of lumen enlargement and embolization (Farb et al). 1995;129:1058-67

Design and initial testing of an ultrasound-guided directional atherectomy device (Fitzgerald et al). 1995;129:593-8 (Prog. cardi.)

Distal embolization is common after directional atherectomy in coronary arteries and saphenous vein grafts (Waksman et al). 1995;129:430-5

Experimental directional atherectomy injury in arterial vessels: impact of trauma depth on cellular response (Gonschior et al). 1995;129:1067-77

Intracoronary ultrasound imaging before and after directional coronary atherectomy: in vitro and clinical observations (Nakamura et al). 1995;129:841-51

Intracoronary ultrasound-defined plaque composition: computer-aided plaque characterization and correlation with histologic samples obtained during directional coronary atherectomy (Rasheed et al). 1995;129:631-7

Atheroma; see Coronary arteriosclerosis

Atherosclerosis, coronary; see Coronary arteriosclerosis

Atherosclerotic ulcer; see Ulcer

Athletics

Clinical presentation and long-term follow-up of athletes with exercise-induced vasodepressor syncope (Calkins et al). 1995;129:1159-64

Atrial aneurysm, congenital; see Heart aneurysm, congenital

Atrial ectopic tachycardia; see Tachycardia, ectopic atrial

Atrial fibrillation

Diurnal variation of ventricular response to atrial fibrillation in patients with advanced heart failure (Frey et al). 1995;129:58-65

Intravenous sotalol for the termination of supraventricular tachycardia and atrial fibrillation and flutter: a multicenter, randomized, double-blind, placebo-controlled study (Sung et al). 1995;129:739-48

Limitations of transesophageal echocardiography in the risk assessment of patients before nonanticoagulated cardioversion from atrial fibrillation and flutter: an analysis of pooled trials (Moreyra et al). 1995;129:71-5

Mechanical treatment of atrial fibrillation: removal of pericardial cyst by thoracoscopy (Vlay and Hartman). 1995;129:616-8 (Brief comm.)

Risk factors for the development of recurrent atrial fibrillation: role of pacing and clinical variables (Reimold et al). 1995;129:1127-32

Transesophageal echocardiographic guidance of cardioversion in patients with atrial fibrillation (Stoddard et al). 1995;129:1204-15 (Prog. cardi.)

Use of P-wave-triggered, P-wave signal-averaged electrocardiogram to predict atrial fibrillation after coronary artery bypass surgery (Klein et al). 1995;129:895-901

Atrial flutter

Intravenous sotalol for the termination of supraventricular tachycardia and atrial fibrillation and flutter: a multicenter, randomized, double-blind, placebo-controlled study (Sung et al). 1995;129:739-48

Limitations of transesophageal echocardiography in the risk assessment of patients before nonanticoagulated cardioversion from atrial fibrillation and flutter: an analysis of pooled trials (Moreyra et al). 1995;129:71-5

Successful treatment of incessant atrial flutter with excision of congenital giant right atrial aneurysm diagnosed by transesophageal echocardiography (Scalia et al). 1995;129:834-5 (Brief comm.)

Atrial function; see also Heart atrium

Left atrial volumes and function in orthotopic cardiac transplantation (Boudoulas et al). 1995;129:774-82

Relation of left atrial V-wave/left ventricular systolic pressure ratio to mitral regurgitant volume (Teien et al). 1995;129:282-4

Atrial natriuretic factor

Atrial wall tension changes and the release of atrial natriuretic factor on relief of cardiac tamponade (Panayiotou et al). 1995;129:960-7

Blood pressure and atrial natriuretic peptides correlate throughout the day (Sothorn et al). 1995;129:907-16

Efficacy of prolonged infusion of urodilatin [ANP-(95-126)] in patients with congestive heart failure (Elsner et al). 1995;129:766-73

Atrial septal defect; see Heart septal defects, atrial**Atrial tachycardia; see Tachycardia****Atrial volume; see Cardiac volume****Autoimmunity**

Possible involvement of the HLA-DQB1 gene in susceptibility and resistance to human dilated cardiomyopathy (Limas et al). 1995;129:1141-4

Autonomic nervous system

Assessment of autonomic tone over a 24-hour period in patients with congestive heart failure: relation between mean heart rate and measures of heart rate variability (Panina et al). 1995;129:748-53

B**Balloon angioplasty; see Angioplasty, balloon****Balloon dilatation**

Balloon dilatation of stenosed pulmonary venous atrium after the Senning procedure (Kajita et al). 1995;129:618-20 (Brief comm.)

Immediate and late outcome of percutaneous balloon mitral valvotomy in patients with significantly calcified valves (Zhang et al). 1995;129:501-6

Percutaneous balloon mitral valvuloplasty by the Inoue technique: a multicenter study of 4832 patients in China (Chen and Cheng). 1995;129:1197-204 (Prog. cardi.)

Regional and arterial localization of radioactive microparticles after local delivery by unsupported or supported porous balloon catheters (Wilensky et al). 1995;129:852-9

Resolution of left atrial spontaneous echocardiographic contrast after percutaneous mitral valvuloplasty: implications for thromboembolic risk (Leung et al). 1995;129:65-70

Balloon-expandable stents; see Stents**Balloon-tipped, flow-directed ultrasound catheters; see Ultrasonography****Balloon valvotomy; see Balloon dilatation****Becker muscular dystrophy; see Muscular dystrophy****Behavior**

Relation between insecurity and type A behavior (Price et al). 1995;129:488-91

Bernoulli equation

Hemodynamic significance of coronary jet velocity in patients: limitations of the Bernoulli equation in small conduits (Kern et al). 1995;129:887-94

Beta-blockers, adrenergic; see Adrenergic beta-receptor blockers**Bigeminy, ventricular; see Ventricular function****Biopsy**

Cardiac dystrophin abnormalities in Becker muscular dystrophy assessed by endomyocardial biopsy (Maeda et al). 1995;129:702-7

Bland-White-Garland syndrome; see Coronary vessel anomalies**Blood flow velocity**

Doppler echocardiographic pulmonary venous flow-velocity pattern for assessment of the hemodynamic profile in acute congestive heart failure (Masuyama et al). 1995;129:107-13

Doppler guide wire flow-velocity indexes measured distal to coronary stenoses associated with reversible thallium perfusion defects (Deychak et al). 1995;129:219-27

Effects of dobutamine on myocardial blood flow, contractile function, and bioenergetic responses distal to coronary stenosis: implications with regard to dobutamine stress testing (Zhang et al). 1995;129:330-42

Blood flow velocity—Cont'd

Hemodynamic significance of coronary jet velocity in patients: limitations of the Bernoulli equation in small conduits (Kern et al). 1995;129:887-94

Intraventricular dispersion of early diastolic filling: a new marker of left ventricular diastolic dysfunction (Yamamoto et al). 1995;129:291-9

Blood platelets

Increase of neutrophil adhesion and vasoconstriction with platelet deposition after deep arterial injury by angioplasty (Merhi et al). 1995;129:445-51

Increased number of thromboxane A₂-prostaglandin H₂ platelet receptors in active unstable angina and causative role of enhanced thrombin formation (Modesti et al). 1995;129:873-9

Blood pressure

Blood pressure and atrial natriuretic peptides correlate throughout the day (Sothorn et al). 1995;129:907-16

Postexercise systolic blood pressure response: association with the presence and extent of perfusion abnormalities on thallium-201 scintigraphy (Taylor and Beller). 1995;129:227-34

Relation of left atrial V-wave/left ventricular systolic pressure ratio to mitral regurgitant volume (Teien et al). 1995;129:282-4

Blood vessels, pathology

Cardiac allograft vasculopathy: current concepts (Ventura et al). 1995;129:791-8 (Curriculum cardi.)

Blood vessels, transplantation

Distal embolization is common after directional atherectomy in coronary arteries and saphenous vein grafts (Waksman et al). 1995;129:430-5

Blood volume

Relation between diastolic left ventricular function and myocardial blood volume during adenosine-induced coronary hyperemia (Ren et al). 1995;129:696-702

Body temperature

Effect of accessory pathway location on the efficiency of heating during radiofrequency catheter ablation (Strickberger et al). 1995;129:54-8

Bookshelf

Bookshelf. 1995;129:630

Bradycardia

Bradycardia- and tachycardia-dependent termination of ventricular bigeminy: mechanism of ventricular extrasystoles with fixed coupling (Kinoshita et al). 1995;129:557-64

Brain natriuretic peptide

Effects of exercise on plasma level of brain natriuretic peptide in congestive heart failure with and without left ventricular dysfunction (Matsumoto et al). 1995;129:139-45

Brief communications

Brief communications. 1995;129:188-202, 392-422, 614-25, 819-40, 1026-46, 1216-21

Bronchopulmonary sequestration

Intralobar pulmonary sequestration with nutrient systemic arterial flow from multiple coronary arteries (Hilton et al). 1995;129:823-6 (Brief comm.)

Buttoned device; see Equipment and supplies**C****Calcified mitral valve; see Mitral valve****Calcium channel blockers**

Amlodipine in chronic stable angina: results of a multicenter, double-blind, crossover trial (Ezekowitz et al). 1995;129:527-35

Time-series analysis of long-term ambulatory myocardial ischemia: effects of β -adrenergic and calcium channel blockade (Lambert et al). 1995;129:677-84

Cardiac abnormalities; see Heart, abnormalities**Cardiac amyloidosis; see Amyloidosis****Cardiac catheterization; see Heart catheterization****Cardiac conduction system; see Heart conduction system****Cardiac injury; see Heart injuries****Cardiac pacing, permanent; see Pacemaker, artificial****Cardiac tamponade**

Atrial wall tension changes and the release of atrial natriuretic factor on relief of cardiac tamponade (Panayiotou et al). 1995;129:960-7

Cardiac tamponade—Cont'd

Effect of acute pericardial tamponade on the relative contributions of systolic and diastolic pulmonary venous return: a transesophageal pulsed Doppler study (Louie et al). 1995;129:124-31

Cardiac transplantation; see Heart transplantation

Cardiac volume

Left atrial volumes and function in orthotopic cardiac transplantation (Boudoulas et al). 1995;129:774-82

Right ventricular volume estimation with an ellipsoidal shell model and two-plane magnetic resonance imaging (Denslow et al). 1995;129:782-90

Cardiogenic shock; see Shock, cardiogenic

Cardiology, history

The history of interventional cardiology: cardiac catheterization, angioplasty, and related interventions (Mueller and Sanborn). 1995;129:146-72 (Curriculum cardiol.)

Cardiomyopathy, congestive

Angiotensin-converting enzyme inhibitors and β -blockers in long-term treatment of dilated cardiomyopathy (Regitz-Zagrosek et al). 1995;129:754-61

Early improvement in congestive heart failure after correction of secondary mitral regurgitation in end-stage cardiomyopathy (Bach and Bolling). 1995;129:1165-70

Efficacy and safety of metoprolol in the treatment of doxorubicin-induced cardiomyopathy in pediatric patients (Shaddy et al). 1995;129:197-9 (Brief comm.)

Possible involvement of the HLA-DQB1 gene in susceptibility and resistance to human dilated cardiomyopathy (Limas et al). 1995;129:1141-4

Recovery of left ventricular function in acute nonischemic congestive cardiomyopathy (Cross et al). 1995;129:24-30

Reversible dilated cardiomyopathy: an unusual case of thyrotoxicosis (Kantharia et al). 1995;129:1030-2 (Brief comm.)

Cardiomyopathy, restrictive

Inherited restrictive cardiomyopathy in a 74-year-old woman: a case of Fabry's disease (Hillsley et al). 1995;129:199-202 (Brief comm.)

Cardiovascular diseases

Controlled-release drug delivery systems in cardiovascular medicine (Katz et al). 1995;129:359-68 (Curriculum cardiol.)

Nitric oxide donors in the treatment of cardiovascular and pulmonary diseases (Loskove and Frishman). 1995;129:604-13 (Prog. cardiol.)

Cardioversion; see Electric countershock

Cardioverter-defibrillators, implantable; see Defibrillators, implantable

Carotid artery diseases

Protruding atheromas of the aortic arch in symptomatic patients with carotid artery disease (Demopoulos et al). 1995;129:40-4

Catheter ablation

Effect of accessory pathway location on the efficiency of heating during radiofrequency catheter ablation (Strickberger et al). 1995;129:54-8

Left main coronary thrombosis after radiofrequency ablation: successful treatment with percutaneous transluminal angioplasty (Hope et al). 1995;129:1217-9 (Brief comm.)

Microwave ablation of canine atrial tachycardia induced by acinitine (Rho et al). 1995;129:1021-5 (Prog. cardiol.)

Radiofrequency catheter ablation of an atriofascicular connection guided by direct recording of a Mahaim potential (Kusumoto and Lesh). 1995;129:614-6 (Brief comm.)

Temperature-guided radiofrequency catheter ablation of slow pathway in atrioventricular nodal reentrant tachycardia (Choi et al). 1995;129:392-4 (Brief comm.)

Catheters

Bailout coronary stenting with 6F guiding catheters for failed balloon angioplasty (Urban et al). 1995;129:1078-83

Transradial artery coronary angioplasty (Kiemeneij et al). 1995;129:1-7

Ca(2+)-transporting ATPase

Altered diastolic $[Ca^{2+}]_i$ handling in human ventricular myocytes from patients with terminal heart failure (Beuckelmann et al). 1995;129:684-9

Cell adhesion

Increase of neutrophil adhesion and vasoconstriction with platelet deposition after deep arterial injury by angioplasty (Merhi et al). 1995;129:445-51

Cells

Experimental directional atherectomy injury in arterial vessels: impact of trauma depth on cellular response (Gonschior et al). 1995;129:1067-77

Seeding of intracoronary stents with immortalized human microvascular endothelial cells (Scott et al). 1995;129:860-6

Chagas' disease

Comparison of Chagas' heart disease to arrhythmogenic right ventricular cardiomyopathy (Rossi). 1995;129:626-9 (Editorial)

Coronary vascular reactivity is abnormal in patients with Chagas' heart disease (Torres et al). 1995;129:995-1001

Chaotic atrial rhythm; see Arrhythmia

Chemoreceptors

Ultrastructure and immunohistochemistry of the coronary chemoreceptor in human and canine hearts (Hayashi et al). 1995;129:946-59

Child; see also Infant

Chaotic atrial rhythm in children (Dodo et al). 1995;129:990-5

Chaotic atrial tachycardia in children (Salim et al). 1995;129:831-3 (Brief comm.)

Efficacy and safety of metoprolol in the treatment of doxorubicin-induced cardiomyopathy in pediatric patients (Shaddy et al). 1995;129:197-9 (Brief comm.)

Mechanism of balloon angioplasty in children with arterial stenosis assessed by intravascular ultrasound and angiography (Ino et al). 1995;129:132-8

Postinfarction ventricular arrhythmias in children (Johnsrude et al). 1995;129:1171-7

Transesophageal echocardiographic evaluation of cor triatriatum in children (Shuler et al). 1995;129:507-10

China

Percutaneous balloon mitral valvuloplasty by the Inoue technique: a multicenter study of 4832 patients in China (Chen and Cheng). 1995;129:1197-204 (Prog. cardiol.)

Chromosome abnormalities

Myocardial myotonia in myotonic muscular dystrophy (Child and Perloff). 1995;129:982-90

Cigarette smoking; see Smoking

Cinefilm recording

Coronary arteriography for quantitative analysis: experimental and clinical comparison of cinefilm and video recordings (Ozaki et al). 1995;129:471-5

Cocaine

Intraventricular thrombus after cocaine-induced myocardial infarction (Lee et al). 1995;129:403-5 (Brief comm.)

Left ventricular morphologic features and function in nonhospitalized cocaine users: a quantitative two-dimensional echocardiographic study (Eisenberg et al). 1995;129:941-6

Color-flow Doppler echocardiography; see Echocardiography, Doppler

Conduction disturbances; see Heart conduction system

Congenital atrial aneurysm; see Heart aneurysm, congenital

Congenital heart defects; see Heart defects, congenital

Congestive cardiomyopathy; see Cardiomyopathy, congestive

Congestive heart failure; see Heart failure, congestive

Connective tissue, abnormalities

Abnormalities in elastic fibers and other connective-tissue components of floppy mitral valve (Tamura et al). 1995;129:1149-58

Controlled-release delivery systems; see Drug delivery systems

Cor triatriatum

Transesophageal echocardiographic evaluation of cor triatriatum in children (Shuler et al). 1995;129:507-10

Coronary aneurysm

Giant left main coronary artery aneurysm initially seen as an acute coronary syndrome (Olson and Chamusco). 1995;129:1216-7 (Brief comm.)

Coronary angiography

Angiographic predictors of new coronary occlusions (Pétursson et al). 1995;129:515-20

Coronary angiography—Cont'd

Application of quantitative coronary angiography in a cineless environment: in vivo assessment of a fully automated system for clinical use (Cusma et al). 1995;129:300-6

Coronary arteriography for quantitative analysis: experimental and clinical comparison of cinefilm and video recordings (Ozaki et al). 1995;129:471-5

Isolated myocardial bridges with angiographic milking of the left anterior descending coronary artery: a long-term follow-up study (Juillière et al). 1995;129:663-5

Long-term angiographic follow-up of lesions patent 6 months after percutaneous coronary angioplasty (Kitazume et al). 1995;129:441-4

Mechanism of balloon angioplasty in children with arterial stenosis assessed by intravascular ultrasound and angiography (Ino et al). 1995;129:132-8

Mixed-type total anomalous pulmonary venous connection: echocardiographic limitations and angiographic advantages (Reddy et al). 1995;129:1034-8 (Brief comm.)

Serum glycoproteins and severity of coronary atherosclerosis (Mori et al). 1995;129:234-8

Transesophageal echocardiographically guided angiography of an anomalous coronary artery (Aliabadi et al). 1995;129:193-5 (Brief comm.)

Coronary angioplasty; see Angioplasty, transluminal, percutaneous coronary**Coronary arteriosclerosis**

Adenoviral mediated gene transfer to atherosclerotic arteries after balloon angioplasty (Landau et al). 1995;129:1051-7

Attenuation of acetylcholine-induced vasoconstriction by L-arginine is related to the progression of atherosclerosis (Otsuji et al). 1995;129:1094-100

Contribution of endothelium-derived nitric oxide to coronary arterial distensibility: an in vivo two-dimensional intravascular ultrasound study (Sudhir et al). 1995;129:726-32

Coronary artery morphologic features after coronary rotational atherectomy: insights into mechanisms of lumen enlargement and embolization (Farb et al). 1995;129:1058-67

Intracoronary two-dimensional ultrasound imaging in the assessment of plaque morphologic features and the planning of coronary interventions (Baptista et al). 1995;129:177-87 (Prog. cardiol.)

Protruding atheromas of the aortic arch in symptomatic patients with carotid artery disease (Demopoulos et al). 1995;129:40-4

Serum glycoproteins and severity of coronary atherosclerosis (Mori et al). 1995;129:234-8

Coronary artery bypass

Arrhythmias and conduction disturbances after coronary artery bypass graft surgery: epidemiology, management, and prognosis (Pires et al). 1995;129:799-808 (Curriculum cardi.)

Low-dose dobutamine echocardiography predicts the early response of dysfunctioning myocardial segments to coronary artery bypass grafting (Voci et al). 1995;129:521-6

Serial changes in left ventricular function after coronary artery bypass: implications in viability assessment (Ghods et al). 1995;129:20-3

Use of P-wave-triggered, P-wave signal-averaged electrocardiogram to predict atrial fibrillation after coronary artery bypass surgery (Klein et al). 1995;129:895-901

Coronary Artery Surgery Study

Significance of silent myocardial ischemia during exercise testing in women: report from the Coronary Artery Surgery Study (Weiner et al). 1995;129:465-70

Coronary atherectomy; see Atherectomy, coronary**Coronary circulation**

Intralobar pulmonary sequestration with nutrient systemic arterial flow from multiple coronary arteries (Hilton et al). 1995;129:823-6 (Brief comm.)

Coronary disease, diagnosis

Angiographic predictors of new coronary occlusions (Pétursson et al). 1995;129:515-20

Application of quantitative coronary angiography in a cineless environment: in vivo assessment of a fully automated system for clinical use (Cusma et al). 1995;129:300-6

Coronary disease, diagnosis—Cont'd

Detection of angina-provoking coronary stenosis by resting iodine 123 metaiodobenzylguanidine scintigraphy in patients with unstable angina pectoris (Tsutsui et al). 1995;129:708-15

Diagnosis and management of exercise-induced coronary spasm by exercise echocardiography (Kafka). 1995;129:819-21 (Brief comm.)

Duration and magnitude of ST-segment depression during exercise and recovery: a symmetric relation (Bogaty et al). 1995;129:666-71

Giant left main coronary artery aneurysm initially seen as an acute coronary syndrome (Olson and Chamusco). 1995;129:1216-7 (Brief comm.)

Hemodynamic evidence of painless myocardial ischemia with acute pulmonary edema in coronary disease (Sharkey and Aberg). 1995;129:188-91 (Brief comm.)

Left main coronary artery disease: assessment, diagnosis, and therapy (Bergelson and Tommaso). 1995;129:350-9 (Curriculum cardi.)

Limited value of exercise testing in the detection of silent restenosis after successful coronary angioplasty (Desmet et al). 1995;129:452-9

Pattern of coronary artery disease in patients with ventricular tachycardia and fibrillation exposed by exercise-induced ischemia (Berntsen et al). 1995;129:733-8

Coronary disease, risk factors

Relation between insecurity and type A behavior (Price et al). 1995;129:488-91

Coronary disease, surgery

Intracoronary ultrasound imaging before and after directional coronary atherectomy: in vitro and clinical observations (Nakamura et al). 1995;129:841-51

Coronary disease, therapy

Left main coronary artery disease: assessment, diagnosis, and therapy (Bergelson and Tommaso). 1995;129:350-9 (Curriculum cardi.)

Natural antioxidants and restenosis after percutaneous transluminal coronary angioplasty (Godfried and Deckelbaum). 1995;129:203-10 (Brief comm.)

Coronary jet velocity; see Blood flow velocity**Coronary occlusion; see Arterial occlusive diseases****Coronary spasm; see Spasm****Coronary stenosis**

Doppler guide wire flow-velocity indexes measured distal to coronary stenoses associated with reversible thallium perfusion defects (Deychak et al). 1995;129:219-27

Effects of dobutamine on myocardial blood flow, contractile function, and bioenergetic responses distal to coronary stenosis: implications with regard to dobutamine stress testing (Zhang et al). 1995;129:330-42

Coronary thrombosis

Comparison of the thrombogenicity of stainless steel and tantalum coronary stents (Scott et al). 1995;129:866-72

Left main coronary thrombosis after radiofrequency ablation: successful treatment with percutaneous transluminal angioplasty (Hope et al). 1995;129:1217-9 (Brief comm.)

Myocardial neutrophil infiltration, lipid peroxidation, and antioxidant activity after coronary artery thrombosis and thrombolysis (Chen et al). 1995;129:211-8

Coronary to pulmonary artery fistula; see Arterio-arterial fistula**Coronary vasodilation; see Vasodilation****Coronary vasospasm**

Surgical coronary angioplasty for left main vasospasm (Sen et al). 1995;129:399-400 (Brief comm.)

Coronary vessel anomalies

Disappearance of systolic narrowing of a mural coronary artery after myocardial infarction (Brito and Brito). 1995;129:401-3 (Brief comm.)

Intralobar pulmonary sequestration with nutrient systemic arterial flow from multiple coronary arteries (Hilton et al). 1995;129:823-6 (Brief comm.)

Magnetic resonance imaging in Bland-White-Garland syndrome (Molinari et al). 1995;129:1040-2 (Brief comm.)

Transesophageal echocardiographically guided angiography of an anomalous coronary artery (Aliabadi et al). 1995;129:193-5 (Brief comm.)

Coronary vessels

Coronary vascular reactivity is abnormal in patients with Chagas' heart disease (Torres et al). 1995;129:995-1001

Correspondence; see Letters

Critical care

Transesophageal echocardiography in critically ill patients (Sekowski) (Letter); (Zoghbi) (Reply). 1995;129:1224

Curriculum in cardiology

Curriculum in cardiology. 1995;129:146-72, 350-68, 578-92, 791-808, 1014-20, 1193-6

Cyanosis

Intermittent cyanosis from tricuspid obstruction resulting from aortic compression in hypertension (Shaw et al). 1995;129:394-9 (Brief comm.)

Cystic lymphangioma; see Lymphangioma

D

Death, sudden, cardiac

Cardiac conduction system involvement in sudden death of obese young people (Bharati and Lev). 1995;129:273-81

Decision making, computer-assisted

Effect of intracoronary ultrasound imaging on clinical decision making (Lee et al). 1995;129:1084-93

Defibrillators, implantable

Cardioverter-defibrillator implantation in the catheterization laboratory: initial experiences in 48 patients (Trappe et al). 1995;129:259-64

Electrocardiographic pseudo-infarct patterns after implantation of cardioverter-defibrillators (Osswald et al). 1995;129:265-72

Implantation of transvenous nonthoracotomy cardioverter-defibrillator systems in patients with permanent endocardial pacemakers (Brooks et al). 1995;129:45-53

A new transvenous internal cardioverter-defibrillator: implantation technique, complications, and short-term follow-up (Jordaens et al). 1995;129:251-8

Transvenous cardioverter-defibrillator implantation via persistent left superior vena cava (Brooks et al). 1995;129:195-7 (Brief comm.)

Dehydration

Gender differences in dehydration-induced mitral valve prolapse (Aufderheide et al). 1995;129:83-6

Diagnostic imaging

Coronary arteriography for quantitative analysis: experimental and clinical comparison of cinefilm and video recordings (Ozaki et al). 1995;129:471-5

Effect of intracoronary ultrasound imaging on clinical decision making (Lee et al). 1995;129:1084-93

High-frequency ultrasound: determination of the lowest frequency required for cellular imaging and detection of myocardial disease (Chandraratna et al). 1995;129:15-9

Intracoronary two-dimensional ultrasound imaging in the assessment of plaque morphologic features and the planning of coronary interventions (Baptista et al). 1995;129:177-87 (Prog. cardiol.)

Intracoronary ultrasound-defined plaque composition: computer-aided plaque characterization and correlation with histologic samples obtained during directional coronary atherectomy (Rasheed et al). 1995;129:631-7

Long-term risk stratification with dipyridamole imaging (Lette et al). 1995;129:880-6

Diastole

Altered diastolic $[Ca^{2+}]_i$ handling in human ventricular myocytes from patients with terminal heart failure (Beuckelmann et al). 1995;129:684-9

Diastolic dysfunction is a feature of the antiphospholipid syndrome (Hasnie et al). 1995;129:1009-13

Doppler evaluations of left ventricular diastolic filling and pulmonary wedge pressure provide similar prognostic information in patients with systolic dysfunction after myocardial infarction (Pozzoli et al). 1995;129:716-25

Effect of acute pericardial tamponade on the relative contributions of systolic and diastolic pulmonary venous return: a transesophageal pulsed Doppler study (Louie et al). 1995;129:124-31

Diastole—Cont'd

Intraventricular dispersion of early diastolic filling: a new marker of left ventricular diastolic dysfunction (Yamamoto et al). 1995;129:291-9

Relation between diastolic left ventricular function and myocardial blood volume during adenosine-induced coronary hyperemia (Ren et al). 1995;129:696-702

Dilated cardiomyopathy; see Cardiomyopathy, congestive

Dipyridamole

Long-term risk stratification with dipyridamole imaging (Lette et al). 1995;129:880-6

Positive high-dose dipyridamole echocardiography test after acute myocardial infarction is an excellent predictor of cardiac events (Nešković et al). 1995;129:31-9

Directional atherectomy; see Atherectomy, coronary

Disease models, animal

Failure of intravenous metoprolol to limit acute myocardial infarct size in a nonreperfused porcine model (Kern et al). 1995;129:650-5

Dissection

Penetrating atherosclerotic ulcer of the aortic arch resulting in extensive and fatal dissection (Benitez et al). 1995;129:821-3 (Brief comm.)

Dobutamine

Does hypotension during dobutamine stress echocardiography correlate with anatomic or functional cardiac impairment? (Lieberman et al). 1995;129:1121-6

Effects of dobutamine on myocardial blood flow, contractile function, and bioenergetic responses distal to coronary stenosis: implications with regard to dobutamine stress testing (Zhang et al). 1995;129:330-42

Electrocardiographic response during dobutamine stress echocardiography (Daoud et al). 1995;129:672-7

Low-dose dobutamine echocardiography predicts the early response of dysfunctioning myocardial segments to coronary artery bypass grafting (Voci et al). 1995;129:521-6

Recognition of the segmental tendency of false-positive dobutamine stress echocardiograms and its effects on test sensitivity and specificity (Latham et al). 1995;129:1047-50 (Editorial)

Doppler echocardiography; see Echocardiography, Doppler

Doppler guide wire; see Equipment and supplies

Doxorubicin

Efficacy and safety of metoprolol in the treatment of doxorubicin-induced cardiomyopathy in pediatric patients (Shaddy et al). 1995;129:197-9 (Brief comm.)

Drug delivery systems

Controlled-release drug delivery systems in cardiovascular medicine (Katz et al). 1995;129:359-68 (Curriculum cardiol.)

Drug tolerance

Nitrate tolerance (Kendall) (Letter); (Glasser and Mangione) (Reply). 1995;129:1223-4

Dysplasia-cardiomyopathy; see Myocardial diseases

Dystrophin

Cardiac dystrophin abnormalities in Becker muscular dystrophy assessed by endomyocardial biopsy (Maeda et al). 1995;129:702-7

E

Echocardiography

Coronary to pulmonary artery fistula detected by transthoracic echocardiography (Kaplan and Redberg). 1995;129:839-40 (Brief comm.)

Diagnosis and management of exercise-induced coronary spasm by exercise echocardiography (Kafka). 1995;129:819-21 (Brief comm.)

Does hypotension during dobutamine stress echocardiography correlate with anatomic or functional cardiac impairment? (Lieberman et al). 1995;129:1121-6

Echocardiographic identification of thymic tissue in neonates with congenital heart disease (Yeager and Sanders). 1995;129:837-9 (Brief comm.)

Echocardiographic left ventricular systolic function and volumes in young adults: distribution and factors influencing variability (Wong et al). 1995;129:571-7

Echocardiography—Cont'd

- Echocardiographic predictors of success of catheter closure of atrial septal defect with the buttoned device (Reddy et al). 1995;129:76-82
- Electrocardiographic response during dobutamine stress echocardiography (Daoud et al). 1995;129:672-7
- Endocardiographic diagnosis of type B interruption of a right aortic arch (Geva and Gajarski). 1995;129:1042-5 (Brief comm.)
- Intracardiac echocardiography without fluoroscopy: potential of a balloon-tipped, flow-directed ultrasound catheter (Schwartz et al). 1995;129:598-603 (Prog. cardi.)
- Left ventricular morphologic features and function in nonhospitalized cocaine users: a quantitative two-dimensional echocardiographic study (Eisenberg et al). 1995;129:941-6
- Low-dose dobutamine echocardiography predicts the early response of dysfunctioning myocardial segments to coronary artery bypass grafting (Voci et al). 1995;129:521-6
- Migration of paradoxical embolus through a patent foramen ovale diagnosed by echocardiography: successful thrombolysis (Hust et al). 1995;129:620-2 (Brief comm.)
- Mixed-type total anomalous pulmonary venous connection: echocardiographic limitations and angiographic advantages (Reddy et al). 1995;129:1034-8 (Brief comm.)
- Positive high-dose dipyridamole echocardiography test after acute myocardial infarction: an excellent predictor of cardiac events (Nešković et al). 1995;129:31-9
- Quantitation of myocardial dysfunction in ischemic heart disease by echocardiographic endocardial surface mapping: correlation with hemodynamic status (Fisher et al). 1995;129:1114-21
- Recognition of the segmental tendency of false-positive dobutamine stress echocardiograms and its effects on test sensitivity and specificity (Latham et al). 1995;129:1047-50 (Editorial)
- Resolution of left atrial spontaneous echocardiographic contrast after percutaneous mitral valvuloplasty: implications for thromboembolic risk (Leung et al). 1995;129:65-70
- Segmental analysis of resting echocardiographic function and stress scintigraphic perfusion: implications for myocardial viability (Foster et al). 1995;129:7-14
- Spontaneous transient, inverted U waves as initial electrocardiographic manifestation of unstable angina (Jaffe and Boden). 1995;129:1028-30 (Brief comm.)
- Three-dimensional echocardiography in the diagnosis of postinfarction ventricular septal defect (Gabriel et al). 1995;129:1038-40 (Brief comm.)
- Truncus arteriosus with double aortic arch: two-dimensional and color flow Doppler echocardiographic diagnosis (Alboliras et al). 1995;129:415-7 (Brief comm.)
- Echocardiography, Doppler**
- Abnormal pulmonary artery pressure profile after cardiac transplantation: an exercise Doppler echocardiographic study (Barbant et al). 1995;129:1185-92
- Color flow Doppler determination of transmitral flow and orifice area in mitral stenosis: experimental evaluation of the proximal flow convergence method (Shiota et al). 1995;129:114-23
- Doppler echocardiographic pulmonary venous flow-velocity pattern for assessment of the hemodynamic profile in acute congestive heart failure (Masuyama et al). 1995;129:107-13
- Doppler evaluations of left ventricular diastolic filling and pulmonary wedge pressure provide similar prognostic information in patients with systolic dysfunction after myocardial infarction (Pozzoli et al). 1995;129:716-25
- Echo Doppler evaluation of patients with acute mitral regurgitation: superiority of transesophageal echocardiography with color flow imaging (Smith et al). 1995;129:967-74
- Effect of acute pericardial tamponade on the relative contributions of systolic and diastolic pulmonary venous return: a transesophageal pulsed Doppler study (Louie et al). 1995;129:124-31
- Quantitation of aortic regurgitation by Doppler echocardiography: a practical approach (Dolan et al). 1995;129:1014-20 (Curriculum cardi.)
- Truncus arteriosus with double aortic arch: two-dimensional and color flow Doppler echocardiographic diagnosis (Alboliras et al). 1995;129:415-7 (Brief comm.)

Echocardiography, transesophageal

- Echo Doppler evaluation of patients with acute mitral regurgitation: superiority of transesophageal echocardiography with color flow imaging (Smith et al). 1995;129:967-74
- Effect of acute pericardial tamponade on the relative contributions of systolic and diastolic pulmonary venous return: a transesophageal pulsed Doppler study (Louie et al). 1995;129:124-31
- Impending paradoxical embolism in acute pulmonary embolism: diagnosis by transesophageal echocardiography and treatment by emergent surgery (Mathew et al). 1995;129:826-7 (Brief comm.)
- Interventional cardiac catheterization under transesophageal echocardiographic guidance (Tong et al). 1995;129:827-31 (Brief comm.)
- Isolated mitral valve rupture caused by nonpenetrating trauma: recognition by transesophageal echocardiography (Pérez de Prado et al). 1995;129:1032-4 (Brief comm.)
- Limitations of transesophageal echocardiography in the risk assessment of patients before nonanticoagulated cardioversion from atrial fibrillation and flutter: an analysis of pooled trials (Moreyra et al). 1995;129:71-5
- Papillary muscle rupture complicating inferior myocardial infarction: identification with transesophageal echocardiography (Manning et al). 1995;129:191-3 (Brief comm.)
- Successful treatment of incessant atrial flutter with excision of congenital giant right atrial aneurysm diagnosed by transesophageal echocardiography (Scalia et al). 1995;129:834-5 (Brief comm.)
- Thromboembolic complications in cardiac amyloidosis detected by transesophageal echocardiography (Willens et al). 1995;129:405-6 (Brief comm.)
- Transesophageal echocardiographic evaluation of cor triatriatum in children (Shuler et al). 1995;129:507-10
- Transesophageal echocardiographic guidance of cardioversion in patients with atrial fibrillation (Stoddard et al). 1995;129:1204-15 (Prog. cardi.)
- Transesophageal echocardiographically guided angiography of an anomalous coronary artery (Aliabadi et al). 1995;129:193-5 (Brief comm.)
- Transesophageal echocardiography in critically ill patients (Sekovski) (Letter); (Zoghbi) (Reply). 1995;129:1224

Editorials

- Editorials. 1995;129:203-10, 626-9, 1047-50, 1233-8

Elastic tissue

- Abnormalities in elastic fibers and other connective-tissue components of floppy mitral valve (Tamura et al). 1995;129:1149-58

Elderly; see Aged**Electric countershock**

- Limitations of transesophageal echocardiography in the risk assessment of patients before nonanticoagulated cardioversion from atrial fibrillation and flutter: an analysis of pooled trials (Moreyra et al). 1995;129:71-5
- Transesophageal echocardiographic guidance of cardioversion in patients with atrial fibrillation (Stoddard et al). 1995;129:1204-15 (Prog. cardi.)

Electrocardiography

- Anatomic explanation of mobile systolic clicks: implications for the clinical and echocardiographic diagnosis of mitral valve prolapse (Weis et al). 1995;129:314-20
- Chaotic atrial tachycardia in children (Salim et al). 1995;129:831-3 (Brief comm.)
- Duration and magnitude of ST-segment depression during exercise and recovery: a symmetric relation (Bogaty et al). 1995;129:666-71
- Electrocardiographic pseudo-infarct patterns after implantation of cardioverter-defibrillators (Osswald et al). 1995;129:265-72
- Electrocardiographic repolarization (Statters) (Letter); (Kligfield et al) (Reply). 1995;129:1224-5
- Electrocardiographic response during dobutamine stress echocardiography (Daoud et al). 1995;129:672-7
- Performance of the signal-averaged electrocardiogram: relation to baseline QRS duration (Okin et al). 1995;129:932-40
- QRS prolongation as an indicator of risk of ischemia-related ventricular tachycardia and fibrillation induced by exercise (Berntsen et al). 1995;129:542-8

Electrocardiography—Cont'd

The time course and relation of positive signal-averaged electrocardiograms by time-domain and spectral temporal mapping analyses after infarction (Graceffo et al). 1995;129:238-51

Time-series analysis of long-term ambulatory myocardial ischemia: effects of β -adrenergic and calcium channel blockade (Lambert et al). 1995;129:677-84

Use of P-wave-triggered, P-wave signal-averaged electrocardiogram to predict atrial fibrillation after coronary artery bypass surgery (Klein et al). 1995;129:895-901

Electrophysiologic studies

Electrophysiologic effects of antiarrhythmic drug therapy in the prediction of successful suppression of induced ventricular tachycardia (Karagounis et al). 1995;129:343-9

Outcome of patients with nonsustained ventricular tachycardia and severely impaired ventricular function who have negative electrophysiologic studies (Hernández et al). 1995;129:492-6

Prediction of electrophysiologic study results in patients treated with amiodarone (Ferrick et al). 1995;129:496-501

Elements, radioactive

Regional and arterial localization of radioactive microparticles after local delivery by unsupported or supported porous balloon catheters (Wilensky et al). 1995;129:852-9

Embolism

Distal embolization is common after directional atherectomy in coronary arteries and saphenous vein grafts (Waksman et al). 1995;129:430-5

Impending paradoxical embolism in acute pulmonary embolism: diagnosis by transesophageal echocardiography and treatment by emergent surgery (Mathew et al). 1995;129:826-7 (Brief comm.)

Migration of paradoxical embolus through a patent foramen ovale diagnosed by echocardiography: successful thrombolysis (Hust et al). 1995;129:620-2 (Brief comm.)

Risk of arterial embolization in 224 patients awaiting cardiac transplantation (Natterson et al). 1995;129:564-70

Embolization, therapeutic

Coronary artery morphologic features after coronary rotational atherectomy: insights into mechanisms of lumen enlargement and embolization (Farb et al). 1995;129:1058-67

Emotional stress; see Stress, psychological

Emotions

Relation between insecurity and type A behavior (Price et al). 1995;129:488-91

Enalapril

Effects of early enalapril treatment on global and regional wall motion in acute myocardial infarction (Carstensen et al). 1995;129:1101-8

Endocardiography; see Echocardiography

Endothelins

Plasma endothelin and early coronary endothelial dysfunction in recipients of a cardiac transplant (Berkenboom et al). 1995;129:1178-84

Endothelium

Contribution of endothelium-derived nitric oxide to coronary arterial distensibility: an in vivo two-dimensional intravascular ultrasound study (Sudhir et al). 1995;129:726-32

Endothelium, coronary vasodilation, and organic nitrates (Mehra). 1995;129:382-91 (Prog. cardiol.)

Seeding of intracoronary stents with immortalized human microvascular endothelial cells (Scott et al). 1995;129:860-6

Enoxaparin

Prospective, randomized, placebo-controlled, double-blind, multicenter study of exercise with enoxaparin pretreatment for stable-effort angina (Fujita et al). 1995;129:535-41

Equipment and supplies

Design and initial testing of an ultrasound-guided directional atherectomy device (Fitzgerald et al). 1995;129:593-8 (Prog. cardiol.)

Doppler guide wire flow-velocity indexes measured distal to coronary stenoses associated with reversible thallium perfusion defects (Deychak et al). 1995;129:219-27

Echocardiographic predictors of success of catheter closure of atrial septal defect with the buttoned device (Reddy et al). 1995;129:76-82

Mode of deployment of coronary Palmaz-Schatz stents after implantation with the stent delivery system: an intravascular ultrasound study (Kiemeneij et al). 1995;129:638-44

Estrogen replacement therapy

Attitudes of women toward hormone therapy and prevention of heart disease (Pilote and Hlatky). 1995;129:1237-8 (Editorial)

Exercise

Clinical presentation and long-term follow-up of athletes with exercise-induced vasodepressor syncope (Calkins et al). 1995;129:1159-64

Exercise test

Abnormal pulmonary artery pressure profile after cardiac transplantation: an exercise Doppler echocardiographic study (Barbant et al). 1995;129:1185-92

Assessment of working skeletal muscle oxygenation in patients with chronic heart failure (Matsui et al). 1995;129:690-5

Diagnosis and management of exercise-induced coronary spasm by exercise echocardiography (Kafka). 1995;129:819-21 (Brief comm.)

Duration and magnitude of ST-segment depression during exercise and recovery: a symmetric relation (Bogaty et al). 1995;129:666-71

Effects of exercise on plasma level of brain natriuretic peptide in congestive heart failure with and without left ventricular dysfunction (Matsumoto et al). 1995;129:139-45

Effects of passive tilt and submaximal exercise on spectral heart rate variability in ventricular fibrillation patients without significant structural heart disease (Fei et al). 1995;129:285-90

Electrocardiographic repolarization (Statters) (Letter); (Kligfield et al) (Reply). 1995;129:1224-5

Interventricular septum and right ventricular function (Danchin) (Letter); (Nakamura et al) (Reply). 1995;129:1227

Left ventricular performance during exercise testing in patients with silent and symptomatic myocardial ischemia (Matsubara et al). 1995;129:459-64

Limited value of exercise testing in the detection of silent restenosis after successful coronary angioplasty (Desmet et al). 1995;129:452-9

Pattern of coronary artery disease in patients with ventricular tachycardia and fibrillation exposed by exercise-induced ischemia (Berntsen et al). 1995;129:733-8

Postexercise systolic blood pressure response: association with the presence and extent of perfusion abnormalities on thallium-201 scintigraphy (Taylor and Beller). 1995;129:227-34

Prospective, randomized, placebo-controlled, double-blind, multicenter study of exercise with enoxaparin pretreatment for stable-effort angina (Fujita et al). 1995;129:535-41

QRS prolongation as an indicator of risk of ischemia-related ventricular tachycardia and fibrillation induced by exercise (Berntsen et al). 1995;129:542-8

Significance of silent myocardial ischemia during exercise testing in women: report from the Coronary Artery Surgery Study (Weiner et al). 1995;129:465-70

Thallium-201 lung uptake and peak treadmill exercise first-pass ejection fraction (Vacarino et al). 1995;129:320-9

Extrasystole

Bradycardia- and tachycardia-dependent termination of ventricular bigeminy: mechanism of ventricular extrasystoles with fixed coupling (Kinoshita et al). 1995;129:557-64

F

Fabry's disease

Inherited restrictive cardiomyopathy in a 74-year-old woman: a case of Fabry's disease (Hillsley et al). 1995;129:199-202 (Brief comm.)

False-positive reactions

Recognition of the segmental tendency of false-positive dobutamine stress echocardiograms and its effects on test sensitivity and specificity (Latham et al). 1995;129:1047-50 (Editorial)

Familial peripartum cardiomyopathy; see Myocardial diseases

Fatty acids

Detection of alterations in left ventricular fatty acid metabolism in patients with acute myocardial infarction by 15-(p-¹²³I-phenyl)-pentadecanoic acid and tomographic imaging (Hansen et al). 1995;129:476-81

Fetal heart

Sinus venosus defect (Anderson et al) (Letter); (Van Praagh et al) (Reply). 1995;129:1229-32

Fibroblast growth factor

Intrapericardial basic fibroblast growth factor induces myocardial angiogenesis in a rabbit model of chronic ischemia (Landau et al). 1995;129:924-31

Floppy mitral valves; see Mitral valve prolapse**Foramen ovale, patent; see Heart septal defects, atrial****G****Gated blood pool imaging**

Serial changes in left ventricular function after coronary artery bypass: implications in viability assessment (Ghods et al). 1995;129:20-3

Gender; see Sex**Gene transfer; see Transfection****Generalist physicians; see Physicians, family****Genes, MHC class II**

Possible involvement of the HLA-DQB1 gene in susceptibility and resistance to human dilated cardiomyopathy (Limas et al). 1995;129:1141-4

Glycoproteins

Serum glycoproteins and severity of coronary atherosclerosis (Mori et al). 1995;129:234-8

Guide wire; see Equipment and supplies**Guiding catheters; see Catheters****H****Heart, anatomy**

Sinus venosus defect (Anderson et al) (Letter); (Van Praagh et al) (Reply). 1995;129:1229-32

Heart, cytology

Ultrastructure and immunohistochemistry of the coronary chemoreceptor in human and canine hearts (Hayashi et al). 1995;129:946-59

Heart, genetics

Cardiac dystrophin abnormalities in Becker muscular dystrophy assessed by endomyocardial biopsy (Maeda et al). 1995;129:702-7

Heart aneurysm, congenital

Successful treatment of incessant atrial flutter with excision of congenital giant right atrial aneurysm diagnosed by transesophageal echocardiography (Scalia et al). 1995;129:834-5 (Brief comm.)

Heart-assist devices

Selection criteria for placement of left ventricular assist devices (Oz et al). 1995;129:173-7 (Prog. cardiol.)

Heart atrium; see also Atrial function

Balloon dilatation of stenosed pulmonary venous atrium after the Senning procedure (Kajita et al). 1995;129:618-20 (Brief comm.)

Heart catheterization

Echocardiographic predictors of success of catheter closure of atrial septal defect with the buttoned device (Reddy et al). 1995;129:76-82

The history of interventional cardiology: cardiac catheterization, angioplasty, and related interventions (Mueller and Sanborn). 1995;129:146-72 (Curriculum cardiol.)

Interventional cardiac catheterization under transesophageal echocardiographic guidance (Tong et al). 1995;129:827-31 (Brief comm.)

Stent implantation for aortic recoarctation (Rosenthal et al). 1995;129:1220-1 (Brief comm.)

Heart conduction system

Arrhythmias and conduction disturbances after coronary artery bypass graft surgery: epidemiology, management, and prognosis (Pires et al). 1995;129:799-808 (Curriculum cardiol.)

Cardiac conduction system involvement in sudden death of obese young people (Bharati and Lev). 1995;129:273-81

Effect of accessory pathway location on the efficiency of heating during radiofrequency catheter ablation (Strickberger et al). 1995;129:54-8

Radiofrequency catheter ablation of an atriofascicular connection guided by direct recording of a Mahaim potential (Kusumoto and Lesh). 1995;129:614-6 (Brief comm.)

Heart defects, congenital

Echocardiographic identification of thymic tissue in neonates with congenital heart disease (Yeager and Sanders). 1995;129:837-9 (Brief comm.)

Heart defects, congenital—Cont'd

Endocardiographic diagnosis of type B interruption of a right aortic arch (Geva and Gajarski). 1995;129:1042-5 (Brief comm.)

Magnetic resonance imaging in Bland-White-Garland syndrome (Molinari et al). 1995;129:1040-2 (Brief comm.)

Mixed-type total anomalous pulmonary venous connection: echocardiographic limitations and angiographic advantages (Reddy et al). 1995;129:1034-8 (Brief comm.)

Sinus venosus defect (Anderson et al) (Letter); (Van Praagh et al) (Reply). 1995;129:1229-32

Truncus arteriosus with double aortic arch: two-dimensional and color flow Doppler echocardiographic diagnosis (Alboliras et al). 1995;129:415-7 (Brief comm.)

Heart disease, prevention and control

Attitudes of women toward hormone therapy and prevention of heart disease (Pilote and Hlatky). 1995;129:1237-8 (Editorial)

Heart failure, congestive

Altered diastolic $[Ca^{2+}]_i$ handling in human ventricular myocytes from patients with terminal heart failure (Beuckelmann et al). 1995;129:684-9

Assessment of autonomic tone over a 24-hour period in patients with congestive heart failure: relation between mean heart rate and measures of heart rate variability (Panina et al). 1995;129:748-53

Assessment of working skeletal muscle oxygenation in patients with chronic heart failure (Matsui et al). 1995;129:690-5

Diurnal variation of ventricular response to atrial fibrillation in patients with advanced heart failure (Frey et al). 1995;129:58-65

Doppler echocardiographic pulmonary venous flow-velocity pattern for assessment of the hemodynamic profile in acute congestive heart failure (Masuyama et al). 1995;129:107-13

Early improvement in congestive heart failure after correction of secondary mitral regurgitation in end-stage cardiomyopathy (Bach and Bolling). 1995;129:1165-70

Effects of exercise on plasma level of brain natriuretic peptide in congestive heart failure with and without left ventricular dysfunction (Matsumoto et al). 1995;129:139-45

Efficacy of prolonged infusion of urodilatin [ANP-(95-126)] in patients with congestive heart failure (Elsner et al). 1995;129:766-73

Intensive home-care surveillance prevents hospitalization and improves morbidity rates among elderly patients with severe congestive heart failure (Kornowski et al). 1995;129:762-6

Lymphocyte G proteins reflect response to treatment in congestive heart failure (Horn et al). 1995;129:98-106

Selection criteria for placement of left ventricular assist devices (Oz et al). 1995;129:173-7 (Prog. cardiol.)

Stability of index of heart rate variability in patients with congestive heart failure (Stein et al). 1995;129:975-81

Heart injuries

Isolated mitral valve rupture caused by nonpenetrating trauma: recognition by transesophageal echocardiography (Pérez de Prado et al). 1995;129:1032-4 (Brief comm.)

Radiation therapy-induced cardiac injury (Benoff and Schweitzer). 1995;129:1193-6 (Curriculum cardiol.)

Heart rate

Assessment of autonomic tone over a 24-hour period in patients with congestive heart failure: relation between mean heart rate and measures of heart rate variability (Panina et al). 1995;129:748-53

Diurnal variation of ventricular response to atrial fibrillation in patients with advanced heart failure (Frey et al). 1995;129:58-65

Effects of passive tilt and submaximal exercise on spectral heart rate variability in ventricular fibrillation patients without significant structural heart disease (Fei et al). 1995;129:285-90

Stability of index of heart rate variability in patients with congestive heart failure (Stein et al). 1995;129:975-81

Heart septal defects, atrial

Echocardiographic predictors of success of catheter closure of atrial septal defect with the buttoned device (Reddy et al). 1995;129:76-82

Migration of paradoxical embolus through a patent foramen ovale diagnosed by echocardiography: successful thrombolysis (Hust et al). 1995;129:620-2 (Brief comm.)

Heart septal defects, ventricular

Three-dimensional echocardiography in the diagnosis of postinfarction ventricular septal defect (Gabriel et al). 1995;129:1038-40 (Brief comm.)

Heart septum

Interventricular septum and right ventricular function (Danchin) (Letter); (Nakamura et al) (Reply). 1995;129:1227

Heart transplantation

Abnormal pulmonary artery pressure profile after cardiac transplantation: an exercise Doppler echocardiographic study (Barbant et al). 1995;129:1185-92

Cardiac allograft vasculopathy: current concepts (Ventura et al). 1995;129:791-8 (Curriculum cardiol.)

Cardiac transplantation for the cardiologist not trained in transplantation (Taylor and Bergin). 1995;129:578-92 (Curriculum cardiol.)

Left atrial volumes and function in orthotopic cardiac transplantation (Boudoulas et al). 1995;129:774-82

Plasma endothelin and early coronary endothelial dysfunction in recipients of a cardiac transplant (Berkenboom et al). 1995;129:1178-84

Heart valve diseases

Assessment of valvular heart disease by magnetic resonance imaging (Globits and Higgins). 1995;129:369-81 (Prog. cardiol.)

Heart ventricle; see also Ventricular function

Altered diastolic $[Ca^{2+}]$ handling in human ventricular myocytes from patients with terminal heart failure (Beuckelmann et al). 1995;129:684-9

Detection of alterations in left ventricular fatty acid metabolism in patients with acute myocardial infarction by 15 -(p- 123 I-phenyl)-pentadecanoic acid and tomographic imaging (Hansen et al). 1995;129:476-81

Doppler evaluations of left ventricular diastolic filling and pulmonary wedge pressure provide similar prognostic information in patients with systolic dysfunction after myocardial infarction (Pozzoli et al). 1995;129:716-25

Intraventricular thrombus after cocaine-induced myocardial infarction (Lee et al). 1995;129:403-5 (Brief comm.)

Long-term evolution of right ventricular dysplasia-cardiomyopathy (Pinamonti et al). 1995;129:412-5 (Brief comm.)

Hemodynamics

Effect of nifedipine on pulmonary hemodynamics (Ghali) (Letter); (Habib) (Reply). 1995;129:1227-8

Hemodynamic evidence of painless myocardial ischemia with acute pulmonary edema in coronary disease (Sharkey and Aberg). 1995;129:188-91 (Brief comm.)

Hemodynamic importance of preserving the normal sequence of ventricular activation in permanent cardiac pacing (Leclercq et al). 1995;129:1133-41

Hemodynamic significance of coronary jet velocity in patients: limitations of the Bernoulli equation in small conduits (Kern et al). 1995;129:887-94

Quantitation of myocardial dysfunction in ischemic heart disease by echocardiographic endocardial surface mapping: correlation with hemodynamic status (Fisher et al). 1995;129:1114-21

Use of intravascular Doppler ultrasonography to assess the hemodynamic significance of the coronary-subclavian steal syndrome (Blumenthal et al). 1995;129:622-5 (Brief comm.)

Hemorrhage

Cystic lymphangioma of the mediastinum (Nakazato et al). 1995;129:406-9 (Brief comm.)

Hemorrhage, subarachnoid; see Subarachnoid hemorrhage

Hibernating myocardium; see Myocardium

HLA-DQB1 genes; see Genes, MHC class II

Home care services

Intensive home-care surveillance prevents hospitalization and improves morbidity rates among elderly patients with severe congestive heart failure (Kornowski et al). 1995;129:762-6

Hormone therapy; see Estrogen replacement therapy

Hyperemia, drug-induced

Relation between diastolic left ventricular function and myocardial blood volume during adenosine-induced coronary hyperemia (Ren et al). 1995;129:696-702

Hypertension

Evaluation of the efficacy and safety of oral nicardipine in treatment of urgent hypertension: a multicenter, randomized, double-blind, parallel, placebo-controlled clinical trial (Habib et al). 1995;129:917-23

Intermittent cyanosis from tricuspid obstruction resulting from aortic compression in hypertension (Shaw et al). 1995;129:394-9 (Brief comm.)

Hypertension, pulmonary

Five-year follow-up study of the prevalence and progression of pulmonary hypertension in systemic lupus erythematosus (Winslow et al). 1995;129:510-5

Hypotension

Does hypotension during dobutamine stress echocardiography correlate with anatomic or functional cardiac impairment? (Lieberman et al). 1995;129:1121-6

I

Immunohistochemistry

Ultrastructure and immunohistochemistry of the coronary chemoreceptor in human and canine hearts (Hayashi et al). 1995;129:946-59

Infant

Treatment of atrial ectopic tachycardia in infants 6 months old (Bauersfeld et al). 1995;129:1145-8

Infant, newborn

Echocardiographic identification of thymic tissue in neonates with congenital heart disease (Yeager and Sanders). 1995;129:837-9 (Brief comm.)

Infusions, intravenous

Efficacy of prolonged infusion of urotilatin [ANP-(95-126)] in patients with congestive heart failure (Elsner et al). 1995;129:766-73

Failure of intravenous metoprolol to limit acute myocardial infarct size in a nonreperfused porcine model (Kern et al). 1995;129:650-5

Four- versus 6-minute infusion protocol for adenosine thallium-201 single photon emission computed tomography imaging (O'Keefe et al). 1995;129:482-7

Intravenous sotalol for the termination of supraventricular tachycardia and atrial fibrillation and flutter: a multicenter, randomized, double-blind, placebo-controlled study (Sung et al). 1995;129:739-48

Inoue technique; see Balloon dilatation

Insecurity; see Emotions

Interruption of aortic arch; see Heart defects, congenital

Interventricular septum; see Heart septum

Intraoperative complications

Arrhythmias and conduction disturbances after coronary artery bypass graft surgery: epidemiology, management, and prognosis (Pires et al). 1995;129:799-808 (Curriculum cardiol.)

Intraoperative monitoring

Cardioverter-defibrillator implantation in the catheterization laboratory: initial experiences in 48 patients (Trappe et al). 1995;129:259-64

Intravenous infusions; see Infusions, intravenous

Intubation, gastrointestinal

Transesophageal echocardiography in critically ill patients (Sekovski) (Letter); (Zoghbi) (Reply). 1995;129:1224

Iodine

Detection of angina-provoking coronary stenosis by resting iodine 123 metaiodobenzylguanidine scintigraphy in patients with unstable angina pectoris (Tsutsui et al). 1995;129:708-15

Isoproterenol

Diagnostic accuracy of a low-dose isoproterenol head-up tilt protocol (Morillo et al). 1995;129:901-6

L

L-arginine; see Arginine

Left ventricular function; see Ventricular function, left

Letters

- Magnetic resonance techniques for the assessment of myocardial viability: clinical experience (Vliegen et al). 1995;129:809-18 (Prog. cardiol.)

Myocardial infarction

- Detection of alterations in left ventricular fatty acid metabolism in patients with acute myocardial infarction by 15-(p-¹²³I-phenyl)-pentadecanoic acid and tomographic imaging (Hansen et al). 1995;129:476-81
- Disappearance of systolic narrowing of a mural coronary artery after myocardial infarction (Brito and Brito). 1995;129:401-3 (Brief comm.)
- Effect of aspirin use on death and recurrent myocardial infarction in current and former cigarette smokers (Fitch et al). 1995;129:656-62
- Electrocardiographic pseudo-infarct patterns after implantation of cardioverter-defibrillators (Osswald et al). 1995;129:265-72
- Gender does not influence acute myocardial infarction in adult dogs (Przyklenk et al). 1995;129:1108-13
- Intraventricular thrombus after cocaine-induced myocardial infarction (Lee et al). 1995;129:403-5 (Brief comm.)

Myocardial infarction—Cont'd

Recurrent reversible cardiogenic shock triggered by emotional distress with no obstructive coronary disease (Hachamovitch et al). 1995;129:1026-8 (Brief comm.)

The time course and relation of positive signal-averaged electrocardiograms by time-domain and spectral temporal mapping analyses after infarction (Graceffo et al). 1995;129:238-51

Myocardial infarction, complications

Doppler evaluations of left ventricular diastolic filling and pulmonary wedge pressure provide similar prognostic information in patients with systolic dysfunction after myocardial infarction (Pozzoli et al). 1995;129:716-25

Myocardial rupture after myocardial infarction is related to the perfusion status of the infarct-related coronary artery (Cherix et al). 1995;129:644-50

Papillary muscle rupture complicating inferior myocardial infarction: identification with transesophageal echocardiography (Manning et al). 1995;129:191-3 (Brief comm.)

Positive high-dose dipyridamole echocardiography test after acute myocardial infarction is an excellent predictor of cardiac events (Nešković et al). 1995;129:31-9

Postinfarction ventricular arrhythmias in children (Johnsrude et al). 1995;129:1171-7

Three-dimensional echocardiography in the diagnosis of postinfarction ventricular septal defect (Gabriel et al). 1995;129:1038-40 (Brief comm.)

Myocardial infarction, drug therapy

Effects of early enalapril treatment on global and regional wall motion in acute myocardial infarction (Carstensen et al). 1995;129:1101-8

Failure of intravenous metoprolol to limit acute myocardial infarct size in a nonreperfused porcine model (Kern et al). 1995;129:650-5

Myocardial ischemia

Effects of the potassium channel blocking agent ambasilide on ventricular arrhythmias induced by acute myocardial ischemia and sympathetic activation (Stramba-Badiale et al). 1995;129:549-56

Hemodynamic evidence of painless myocardial ischemia with acute pulmonary edema in coronary disease (Sharkey and Aberg). 1995;129:188-91 (Brief comm.)

Intrapericardial basic fibroblast growth factor induces myocardial angiogenesis in a rabbit model of chronic ischemia (Landau et al). 1995;129:924-31

Left ventricular performance during exercise testing in patients with silent and symptomatic myocardial ischemia (Matsubara et al). 1995;129:459-64

Quantitation of myocardial dysfunction in ischemic heart disease by echocardiographic endocardial surface mapping: correlation with hemodynamic status (Fisher et al). 1995;129:1114-21

Significance of silent myocardial ischemia during exercise testing in women: report from the Coronary Artery Surgery Study (Weiner et al). 1995;129:465-70

Time-series analysis of long-term ambulatory myocardial ischemia: effects of β -adrenergic and calcium channel blockade (Lambert et al). 1995;129:677-84

Myocardium

Isolated myocardial bridges with angiographic milking of the left anterior descending coronary artery: a long-term follow-up study (Juillière et al). 1995;129:663-5

Low-dose dobutamine echocardiography predicts the early response of dysfunctioning myocardial segments to coronary artery bypass grafting (Voci et al). 1995;129:521-6

Myocardial myotonia in myotonic muscular dystrophy (Child and Perloff). 1995;129:982-90

Myocardial neutrophil infiltration, lipid peroxidation, and antioxidant activity after coronary artery thrombolysis and thrombolysis (Chen et al). 1995;129:211-8

Rest technetium 99m-sestamibi tomoscintigraphy in hibernating myocardium (Maublant et al). 1995;129:306-14

Segmental analysis of resting echocardiographic function and stress scintigraphic perfusion: implications for myocardial viability (Foster et al). 1995;129:7-14

Myotonia

Myocardial myotonia in myotonic muscular dystrophy (Child and Perloff). 1995;129:982-90

N

Nasogastric intubation; see Intubation, gastrointestinal

Neonate; see Infant, newborn

Neutrophils

Increase of neutrophil adhesion and vasoconstriction with platelet deposition after deep arterial injury by angioplasty (Merhi et al). 1995;129:445-51

Myocardial neutrophil infiltration, lipid peroxidation, and antioxidant activity after coronary artery thrombolysis and thrombolysis (Chen et al). 1995;129:211-8

Nicardipine

Evaluation of the efficacy and safety of oral nicardipine in treatment of urgent hypertension: a multicenter, randomized, double-blind, parallel, placebo-controlled clinical trial (Habib et al). 1995;129:917-23

Nifedipine

Effect of nifedipine on pulmonary hemodynamics (Ghali) (Letter); (Habib) (Reply). 1995;129:1227-8

Nitrates

Endothelium, coronary vasodilation, and organic nitrates (Mehra). 1995;129:382-91 (Prog. cardiol.)

Nitrate tolerance (Kendall) (Letter); (Glasser and Mangione) (Reply). 1995;129:1223-4

Nitric oxide

Contribution of endothelium-derived nitric oxide to coronary arterial distensibility: an in vivo two-dimensional intravascular ultrasound study (Sudhir et al). 1995;129:726-32

Nitric oxide donors in the treatment of cardiovascular and pulmonary diseases (Loskove and Frishman). 1995;129:604-13 (Prog. cardiol.)

Nonpenetrating trauma; see Wounds, nonpenetrating

O

Obesity

Cardiac conduction system involvement in sudden death of obese young people (Bharati and Lev). 1995;129:273-81

Organic nitrates; see Nitrates

Orthotopic cardiac transplantation; see Heart transplantation

Oxygenation

Assessment of working skeletal muscle oxygenation in patients with chronic heart failure (Matsui et al). 1995;129:690-5

P

Pacemaker, artificial

Effects of sotalol on the function of implanted pacemakers (Pool et al). 1995;129:1045-6 (Brief comm.)

Hemodynamic importance of preserving the normal sequence of ventricular activation in permanent cardiac pacing (Leclercq et al). 1995;129:1133-41

Implantation of transvenous nonthoracotomy cardioverter-defibrillator systems in patients with permanent endocardial pacemakers (Brooks et al). 1995;129:45-53

Risk factors for the development of recurrent atrial fibrillation: role of pacing and clinical variables (Reimold et al). 1995;129:1127-32

Venous stenting as treatment for pacemaker-induced superior vena cava syndrome (Francis et al). 1995;129:836-7 (Brief comm.)

Palmaz-Schatz stent; see Stents

Papillary muscles

Papillary muscle rupture complicating inferior myocardial infarction: identification with transesophageal echocardiography (Manning et al). 1995;129:191-3 (Brief comm.)

Paradoxical embolism; see Embolism

Patent foramen ovale; see Heart septal defects, atrial

Patient participation

Attitudes of women toward hormone therapy and prevention of heart disease (Pilote and Hlatky). 1995;129:1237-8 (Editorial)

Pediatrics; see Child; Infant

Pentadecanoic acid; see Fatty acids

Percutaneous balloon mitral valvotomy; see Balloon dilatation

Perfusion

Doppler guide wire flow-velocity indexes measured distal to coronary stenoses associated with reversible thallium perfusion defects (Deychak et al). 1995;129:219-27

Perfusion—Cont'd

Myocardial rupture after myocardial infarction is related to the perfusion status of the infarct-related coronary artery (Cheriet et al). 1995;129:644-50

Postexercise systolic blood pressure response: association with the presence and extent of perfusion abnormalities on thallium-201 scintigraphy (Taylor and Beller). 1995;129:227-34

Pericardial cyst

Mechanical treatment of atrial fibrillation: removal of pericardial cyst by thoracoscopy (Vlay and Hartman). 1995;129:616-8 (Brief comm.)

Pericardial tamponade; see Cardiac tamponade**Pericardium**

Intrapericardial basic fibroblast growth factor induces myocardial angiogenesis in a rabbit model of chronic ischemia (Landau et al). 1995;129:924-31

Peripartum cardiomyopathy, familial; see Myocardial diseases**Physicians, family**

The generalist physician: a partner in a new specialty (Mirvis). 1995;129:1233-6 (Editorial)

Placebos

Evaluation of the efficacy and safety of oral nicardipine in treatment of urgent hypertension: a multicenter, randomized, double-blind, parallel, placebo-controlled clinical trial (Habib et al). 1995;129:917-23

Prospective, randomized, placebo-controlled, double-blind, multicenter study of exercise with enoxaparin pretreatment for stable-effort angina (Fujita et al). 1995;129:535-41

Plasma

Effects of exercise on plasma level of brain natriuretic peptide in congestive heart failure with and without left ventricular dysfunction (Matsumoto et al). 1995;129:139-45

Plasma endothelin and early coronary endothelial dysfunction in recipients of a cardiac transplant (Berkensboom et al). 1995;129:1178-84

Platelets; see Blood platelets**Polarization**

Electrocardiographic repolarization (Statters) (Letter); (Kligfield et al) (Reply). 1995;129:1224-5

Postoperative care

Cardiac transplantation for the cardiologist not trained in transplantation (Taylor and Bergin). 1995;129:578-92 (Curriculum cardiologist)

Postoperative complications

Distal embolization is common after directional atherectomy in coronary arteries and saphenous vein grafts (Waksman et al). 1995;129:430-5

Multicenter evaluation of the Strecker tantalum stent for acute coronary occlusion after angioplasty (Hamm et al). 1995;129:423-9

Potassium channel blockers

Effects of the potassium channel blocking agent ambasilide on ventricular arrhythmias induced by acute myocardial ischemia and sympathetic activation (Stramba-Badiale et al). 1995;129:549-56

Pregnancy

Familial occurrence of peripartum cardiomyopathy (Pearl). 1995;129:421-2 (Brief comm.)

Preoperative care

Cardiac transplantation for the cardiologist not trained in transplantation (Taylor and Bergin). 1995;129:578-92 (Curriculum cardiologist)

Procainamide

Multicenter trial of sotalol compared with procainamide in the suppression of inducible ventricular tachycardia: a double-blind, randomized parallel evaluation (Singh et al). 1995;129:87-97

Progress in cardiology

Progress in cardiology. 1995;129:173-87, 369-91, 593-613, 809-18, 1021-5, 1197-1215

Prostaglandins H

Increased number of thromboxane A₂-prostaglandin H₂ platelet receptors in active unstable angina and causative role of enhanced thrombin formation (Modesti et al). 1995;129:873-9

Proteins

Lymphocyte G proteins reflect response to treatment in congestive heart failure (Horn et al). 1995;129:98-106

Proximal flow convergence

Color flow Doppler determination of transmitral flow and orifice area in mitral stenosis: experimental evaluation of the proximal flow convergence method (Shiota et al). 1995;129:114-23

Pseudo aneurysm; see Aneurysm**Pseudo-infarction; see Myocardial infarction****Pulmonary artery**

Pulmonary diseases; see Lung diseases**Pulmonary edema**

Hemodynamic evidence of painless myocardial ischemia with acute pulmonary edema in coronary disease (Sharkey and Aberg). 1995;129:188-91 (Brief comm.)

Pulmonary embolism

Impending paradoxical embolism in acute pulmonary embolism: diagnosis by transesophageal echocardiography and treatment by emergent surgery (Mathew et al). 1995;129:826-7 (Brief comm.)

Pulmonary hemodynamics; see Hemodynamics**Pulmonary hypertension; see Hypertension, pulmonary****Pulmonary sequestration; see Bronchopulmonary sequestration****Pulmonary veins**

Doppler echocardiographic pulmonary venous flow-velocity pattern for assessment of the hemodynamic profile in acute congestive heart failure (Masuyama et al). 1995;129:107-13

Effect of acute pericardial tamponade on the relative contributions of systolic and diastolic pulmonary venous return: a transesophageal pulsed Doppler study (Louie et al). 1995;129:124-31

Pulmonary venous atrium stenosis; see Heart atrium**Pulmonary wedge pressure**

Doppler evaluations of left ventricular diastolic filling and pulmonary wedge pressure provide similar prognostic information in patients with systolic dysfunction after myocardial infarction (Pozzoli et al). 1995;129:716-25

Pulseless disease

Takayasu's arteritis (Shrivastava). 1995;129:1228-9 (Letter)

Q**QRS; see Electrocardiography****R****Radial artery**

Transradial artery coronary angioplasty (Kiemeneij et al). 1995;129:1-7

Radiation therapy

Radiation therapy-induced cardiac injury (Benoff and Schweitzer). 1995;129:1193-6 (Curriculum cardiologist)

Radioactive elements; see Elements, radioactive**Radiofrequency catheter ablation; see Catheter ablation****Radionuclide imaging**

Detection of angina-provoking coronary stenosis by resting iodine 123 metaiodobenzylguanidine scintigraphy in patients with unstable angina pectoris (Tsutsui et al). 1995;129:708-15

Postexercise systolic blood pressure response: association with the presence and extent of perfusion abnormalities on thallium-201 scintigraphy (Taylor and Beller). 1995;129:227-34

Recoarctation, aortic; see Aortic coarctation**Regression analysis**

Application of quantitative coronary angiography in a cineless environment: in vivo assessment of a fully automated system for clinical use (Cusma et al). 1995;129:300-6

Repolarization; see Polarization**Restenosis; see Coronary disease entries****Restrictive cardiomyopathy; see Cardiomyopathy, restrictive****Risk factors**

Limitations of transesophageal echocardiography in the risk assessment of patients before nonanticoagulated cardioversion from atrial fibrillation and flutter: an analysis of pooled trials (Moreyra et al). 1995;129:71-5

Long-term risk stratification with dipyridamole imaging (Lette et al). 1995;129:880-6

Risk factors—Cont'd

QRS prolongation as an indicator of risk of ischemia-related ventricular tachycardia and fibrillation induced by exercise (Berntsen et al). 1995;129:542-8

Risk factors for the development of recurrent atrial fibrillation: role of pacing and clinical variables (Reimold et al). 1995;129:1127-32

Risk of arterial embolization in 224 patients awaiting cardiac transplantation (Natterson et al). 1995;129:564-70

Rotational atherectomy; see Atherectomy, coronary

Rupture

Isolated mitral valve rupture caused by nonpenetrating trauma: recognition by transesophageal echocardiography (Pérez de Prado et al). 1995;129:1032-4 (Brief comm.)

Myocardial rupture after myocardial infarction is related to the perfusion status of the infarct-related coronary artery (Cherix et al). 1995;129:644-50

Papillary muscle rupture complicating inferior myocardial infarction: identification with transesophageal echocardiography (Manning et al). 1995;129:191-3 (Brief comm.)

S

Saphenous vein

Distal embolization is common after directional atherectomy in coronary arteries and saphenous vein grafts (Waksman et al). 1995;129:430-5

Scintigraphy; see Radionuclide imaging

Scintigraphy, tomographic; see Tomography, emission-computed

Senning procedure; see Transposition of great vessels

Sensitivity and specificity

Recognition of the segmental tendency of false-positive dobutamine stress echocardiograms and its effects on test sensitivity and specificity (Latham et al). 1995;129:1047-50 (Editorial)

Serotonin

Ultrastructure and immunohistochemistry of the coronary chemoreceptor in human and canine hearts (Hayashi et al). 1995;129:946-59

Serum glycoproteins; see Glycoproteins

Sex

Gender differences in dehydration-induced mitral valve prolapse (Aufderheide et al). 1995;129:83-6

Gender does not influence acute myocardial infarction in adult dogs (Przyklenk et al). 1995;129:1108-13

Shock, cardiogenic

Recurrent reversible cardiogenic shock triggered by emotional distress with no obstructive coronary disease (Hachamovitch et al). 1995;129:1026-8 (Brief comm.)

Signal-averaged electrocardiography; see Electrocardiography

Single-photon emission-computed tomography; see Tomography, emission-computed, single-photon

Sinus venosus defect; see Heart defects, congenital

Skeletal muscles; see Muscles

Smoking

Effect of aspirin use on death and recurrent myocardial infarction in current and former cigarette smokers (Fitch et al). 1995;129:656-62

Sotalol

Effects of sotalol on the function of implanted pacemakers (Pool et al). 1995;129:1045-6 (Brief comm.)

Intravenous sotalol for the termination of supraventricular tachycardia and atrial fibrillation and flutter: a multicenter, randomized, double-blind, placebo-controlled study (Sung et al). 1995;129:739-48

Multicenter trial of sotalol compared with procainamide in the suppression of inducible ventricular tachycardia: a double-blind, randomized parallel evaluation (Singh et al). 1995;129:87-97

Spasm

Diagnosis and management of exercise-induced coronary spasm by exercise echocardiography (Kafka). 1995;129:819-21 (Brief comm.)

Specialties, medical

The generalist physician: a partner in a new specialty (Mirvis). 1995;129:1233-6 (Editorial)

Spectral temporal mapping; see Mapping

ST segment; see Electrocardiography

Stents

Bailout coronary stenting with 6F guiding catheters for failed balloon angioplasty (Urban et al). 1995;129:1078-83

Balloon-expandable stent repair of severe coarctation of aorta (Suárez de Lezo et al). 1995;129:1002-8

Comparison of the thrombogenicity of stainless steel and tantalum coronary stents (Scott et al). 1995;129:866-72

Follow-up patency of side branches covered by intracoronary Palmaz-Schatz stent (Pan et al). 1995;129:436-40

Mode of deployment of coronary Palmaz-Schatz stents after implantation with the stent delivery system: an intravascular ultrasound study (Kiemeneij et al). 1995;129:638-44

Multicenter evaluation of the Strecker tantalum stent for acute coronary occlusion after angioplasty (Hamm et al). 1995;129:423-9

Seeding of intracoronary stents with immortalized human microvascular endothelial cells (Scott et al). 1995;129:860-6

Stent implantation for aortic recoarctation (Rosenthal et al). 1995;129:1220-1 (Brief comm.)

Venous stenting as treatment for pacemaker-induced superior vena cava syndrome (Francis et al). 1995;129:836-7 (Brief comm.)

Strecker tantalum stent; see Stents

Stress, psychological

Recurrent reversible cardiogenic shock triggered by emotional distress with no obstructive coronary disease (Hachamovitch et al). 1995;129:1026-8 (Brief comm.)

Stroke volume

Echocardiographic left ventricular systolic function and volumes in young adults: distribution and factors influencing variability (Wong et al). 1995;129:571-7

Recovery of left ventricular function in acute nonischemic congestive cardiomyopathy (Cross et al). 1995;129:24-30

Right ventricular volume estimation with an ellipsoidal shell model and two-plane magnetic resonance imaging (Denslow et al). 1995;129:782-90

Thallium-201 lung uptake and peak treadmill exercise first-pass ejection fraction (Vaccarino et al). 1995;129:320-9

Subarachnoid hemorrhage

Reversibility of severe left ventricular dysfunction in patients with subarachnoid hemorrhage (Wells et al). 1995;129:409-12 (Brief comm.)

Subclavian steal syndrome

Use of intravascular Doppler ultrasonography to assess the hemodynamic significance of the coronary-subclavian steal syndrome (Blumenthal et al). 1995;129:622-5 (Brief comm.)

Substance abuse

Left ventricular morphologic features and function in nonhospitalized cocaine users: a quantitative two-dimensional echocardiographic study (Eisenberg et al). 1995;129:941-6

Superior vena cava; see Vena cava, superior

Superior vena cava syndrome

Venous stenting as treatment for pacemaker-induced superior vena cava syndrome (Francis et al). 1995;129:836-7 (Brief comm.)

Supraventricular tachycardia; see Tachycardia, supraventricular

Syncope

Clinical presentation and long-term follow-up of athletes with exercise-induced vasodepressor syncope (Calkins et al). 1995;129:1159-64

Diagnostic accuracy of a low-dose isoproterenol head-up tilt protocol (Morillo et al). 1995;129:901-6

Systemic lupus erythematosus; see Lupus erythematosus, systemic

Systole

Angina caused by systolic compression of the left coronary artery as a result of pseudoaneurysm of the mitral-aortic intervalvular fibrosa (Parashara et al). 1995;129:417-21 (Brief comm.)

Disappearance of systolic narrowing of a mural coronary artery after myocardial infarction (Brito and Brito). 1995;129:401-3 (Brief comm.)

Systole—Cont'd

- Doppler evaluations of left ventricular diastolic filling and pulmonary wedge pressure provide similar prognostic information in patients with systolic dysfunction after myocardial infarction (Pozzoli et al). 1995;129:716-25
 - Echocardiographic left ventricular systolic function and volumes in young adults: distribution and factors influencing variability (Wong et al). 1995;129:571-7
 - Effect of acute pericardial tamponade on the relative contributions of systolic and diastolic pulmonary venous return: a transesophageal pulsed Doppler study (Louie et al). 1995;129:124-31
 - Isolated myocardial bridges with angiographic milking of the left anterior descending coronary artery: a long-term follow-up study (Juillière et al). 1995;129:663-5
 - Postexercise systolic blood pressure response: association with the presence and extent of perfusion abnormalities on thallium-201 scintigraphy (Taylor and Beller). 1995;129:227-34
 - Relation of left atrial V-wave/left ventricular systolic pressure ratio to mitral regurgitant volume (Teien et al). 1995;129:282-4
- Systolic click-murmur syndrome**
Anatomic explanation of mobile systolic clicks: implications for the clinical and echocardiographic diagnosis of mitral valve prolapse (Weis et al). 1995;129:314-20

T**Tachycardia**

- Bradycardia- and tachycardia-dependent termination of ventricular bigeminy: mechanism of ventricular extrasystoles with fixed coupling (Kinoshita et al). 1995;129:557-64
- Chaotic atrial tachycardia in children (Salim et al). 1995;129:831-3 (Brief comm.)
- Microwave ablation of canine atrial tachycardia induced by acetylcholine (Rho et al). 1995;129:1021-5 (Prog. cardiol.)

Tachycardia, atrioventricular, nodal reentry

- Temperature-guided radiofrequency catheter ablation of slow pathway in atrioventricular nodal reentrant tachycardia (Choi et al). 1995;129:392-4 (Brief comm.)

Tachycardia, ectopic atrial

- Treatment of atrial ectopic tachycardia in infants 6 months old (Bauersfeld et al). 1995;129:1145-8

Tachycardia, supraventricular

- Intravenous sotalol for the termination of supraventricular tachycardia and atrial fibrillation and flutter: a multicenter, randomized, double-blind, placebo-controlled study (Sung et al). 1995;129:739-48

Tachycardia, ventricular

- Electrophysiologic effects of antiarrhythmic drug therapy in the prediction of successful suppression of induced ventricular tachycardia (Karagounis et al). 1995;129:343-9
- Multicenter trial of sotalol compared with procainamide in the suppression of inducible ventricular tachycardia: a double-blind, randomized parallel evaluation (Singh et al). 1995;129:87-97
- Outcome of patients with nonsustained ventricular tachycardia and severely impaired ventricular function who have negative electrophysiologic studies (Hernández et al). 1995;129:492-6
- Pattern of coronary artery disease in patients with ventricular tachycardia and fibrillation exposed by exercise-induced ischemia (Berntsen et al). 1995;129:733-8
- Prediction of electrophysiologic study results in patients treated with amiodarone (Ferrick et al). 1995;129:496-501
- QRS prolongation as an indicator of risk of ischemia-related ventricular tachycardia and fibrillation induced by exercise (Berntsen et al). 1995;129:542-8

Takayasu's arteritis; see Pulseless disease**Tantalum stents; see Stents****Technetium Tc 99m sestamibi**

- Rest technetium 99m-sestamibi tomoscintigraphy in hibernating myocardium (Maulant et al). 1995;129:306-14

Temperature-guided radiofrequency catheter ablation; see Catheter ablation**Thallium**

- Doppler guide wire flow-velocity indexes measured distal to coronary stenoses associated with reversible thallium perfusion defects (Deychak et al). 1995;129:219-27

Thallium—Cont'd

- Four- versus 6-minute infusion protocol for adenosine thallium-201 single photon emission computed tomography imaging (O'Keefe et al). 1995;129:482-7
- Postexercise systolic blood pressure response: association with the presence and extent of perfusion abnormalities on thallium-201 scintigraphy (Taylor and Beller). 1995;129:227-34
- Thallium-201 lung uptake and peak treadmill exercise first-pass ejection fraction (Vaccaro et al). 1995;129:320-9

Thoracoscopy

- Mechanical treatment of atrial fibrillation: removal of pericardial cyst by thoracoscopy (Vlay and Hartman). 1995;129:616-8 (Brief comm.)

Three-dimensional echocardiography; see Echocardiography**Thrombin**

- Increased number of thromboxane A₂-prostaglandin H₂ platelet receptors in active unstable angina and causative role of enhanced thrombin formation (Modesti et al). 1995;129:873-9

Thromboembolism

- Resolution of left atrial spontaneous echocardiographic contrast after percutaneous mitral valvuloplasty: implications for thromboembolic risk (Leung et al). 1995;129:65-70
- Thromboembolic complications in cardiac amyloidosis detected by transesophageal echocardiography (Willens et al). 1995;129:405-6 (Brief comm.)

Thrombolytic therapy

- Migration of paradoxical embolus through a patent foramen ovale diagnosed by echocardiography: successful thrombolysis (Hust et al). 1995;129:620-2 (Brief comm.)
- Myocardial neutrophil infiltration, lipid peroxidation, and antioxidant activity after coronary artery thrombosis and thrombolysis (Chen et al). 1995;129:211-8
- Thrombolytics and maritime medical care (Selig and Tenzer). 1995;129:1222-3 (Letter)

Thrombosis

- Risk of arterial embolization in 224 patients awaiting cardiac transplantation (Natterson et al). 1995;129:564-70

Thromboxane A₂

- Increased number of thromboxane A₂-prostaglandin H₂ platelet receptors in active unstable angina and causative role of enhanced thrombin formation (Modesti et al). 1995;129:873-9

Thrombus

- Intraventricular thrombus after cocaine-induced myocardial infarction (Lee et al). 1995;129:403-5 (Brief comm.)

Thymic tissue

- Echocardiographic identification of thymic tissue in neonates with congenital heart disease (Yeager and Sanders). 1995;129:837-9 (Brief comm.)

Thyroid antagonists

- Reversible dilated cardiomyopathy: an unusual case of thyrotoxicosis (Kantharia et al). 1995;129:1030-2 (Brief comm.)

Thyrotoxicosis

- Reversible dilated cardiomyopathy: an unusual case of thyrotoxicosis (Kantharia et al). 1995;129:1030-2 (Brief comm.)

Tilt test

- Diagnostic accuracy of a low-dose isoproterenol head-up tilt protocol (Morillo et al). 1995;129:901-6
- Effects of passive tilt and submaximal exercise on spectral heart rate variability in ventricular fibrillation patients without significant structural heart disease (Fei et al). 1995;129:285-90

Tomography

- Detection of alterations in left ventricular fatty acid metabolism in patients with acute myocardial infarction by 15-(p-¹²³I-phenyl)-pentadecanoic acid and tomographic imaging (Hansen et al). 1995;129:476-81

Tomography, emission-computed

- Rest technetium 99m-sestamibi tomoscintigraphy in hibernating myocardium (Maulant et al). 1995;129:306-14
- Segmental analysis of resting echocardiographic function and stress scintigraphic perfusion: implications for myocardial viability (Foster et al). 1995;129:7-14

Tomography, emission-computed, single-photon

- Four- versus 6-minute infusion protocol for adenosine thallium-201 single photon emission computed tomography imaging (O'Keefe et al). 1995;129:482-7

Tomoscintigraphy; see Tomography, emission-computed

Transesophageal echocardiography; see Echocardiography, transesophageal

Transfection

Adenoviral mediated gene transfer to atherosclerotic arteries after balloon angioplasty (Landau et al). 1995;129:1051-7

Transplantation, homologous

Cardiac allograft vasculopathy: current concepts (Ventura et al). 1995;129:791-8 (Curriculum cardiol.)

Transposition of great vessels

Balloon dilatation of stenosed pulmonary venous atrium after the Senning procedure (Kajita et al). 1995;129:618-20 (Brief comm.)

Transthoracic echocardiography; see Echocardiography

Treadmill test; see Exercise test

Tricuspid valve obstruction

Intermittent cyanosis from tricuspid obstruction resulting from aortic compression in hypertension (Shaw et al). 1995;129:394-9 (Brief comm.)

Truncus arteriosus

Truncus arteriosus with double aortic arch: two-dimensional and color flow Doppler echocardiographic diagnosis (Alboliras et al). 1995;129:415-7 (Brief comm.)

Two-dimensional echocardiography; see Echocardiography

Type A personality

Relation between insecurity and type A behavior (Price et al). 1995;129:488-91

U

U waves; see Electrocardiography

Ulcer

Penetrating atherosclerotic ulcer of the aortic arch resulting in extensive and fatal dissection (Benitez et al). 1995;129:821-3 (Brief comm.)

Ultrasonography

Contribution of endothelium-derived nitric oxide to coronary arterial distensibility: an in vivo two-dimensional intravascular ultrasound study (Sudhir et al). 1995;129:726-32

Effect of intracoronary ultrasound imaging on clinical decision making (Lee et al). 1995;129:1084-93

High-frequency ultrasound: determination of the lowest frequency required for cellular imaging and detection of myocardial disease (Chandraratna et al). 1995;129:15-9

Intracardiac echocardiography without fluoroscopy: potential of a balloon-tipped, flow-directed ultrasound catheter (Schwartz et al). 1995;129:598-603 (Prog. cardiol.)

Intracoronary two-dimensional ultrasound imaging in the assessment of plaque morphologic features and the planning of coronary interventions (Baptista et al). 1995;129:177-87 (Prog. cardiol.)

Intracoronary ultrasound imaging before and after directional coronary atherectomy: in vitro and clinical observations (Nakamura et al). 1995;129:841-51

Intracoronary ultrasound-defined plaque composition: computer-aided plaque characterization and correlation with histologic samples obtained during directional coronary atherectomy (Rasheed et al). 1995;129:631-7

Mechanism of balloon angioplasty in children with arterial stenosis assessed by intravascular ultrasound and angiography (Ino et al). 1995;129:132-8

Mode of deployment of coronary Palmaz-Schatz stents after implantation with the stent delivery system: an intravascular ultrasound study (Kiemeneij et al). 1995;129:638-44

Use of intravascular Doppler ultrasonography to assess the hemodynamic significance of the coronary-subclavian steal syndrome (Blumenthal et al). 1995;129:622-5 (Brief comm.)

Ultrasound-guided atherectomy device; see Equipment and supplies

Urotilatin

Efficacy of prolonged infusion of urotilatin [ANP-(95-126)] in patients with congestive heart failure (Elsner et al). 1995;129:766-73

V

Valvular heart disease; see Heart valve diseases

Valvuloplasty; see Balloon dilatation

Vascular patency

Follow-up patency of side branches covered by intracoronary Palmaz-Schatz stent (Pan et al). 1995;129:436-40

Long-term angiographic follow-up of lesions patent 6 months after percutaneous coronary angioplasty (Kitazume et al). 1995;129:441-4

Vasculopathy; see Blood vessels, pathology

Vasoconstriction

Attenuation of acetylcholine-induced vasoconstriction by L-arginine is related to the progression of atherosclerosis (Otsuji et al). 1995;129:1094-100

Increase of neutrophil adhesion and vasoconstriction with platelet deposition after deep arterial injury by angioplasty (Merhi et al). 1995;129:445-51

Vasodepressor syncope; see Syncope

Vasodilation

Endothelium, coronary vasodilation, and organic nitrates (Mehata). 1995;129:382-91 (Prog. cardiol.)

Vasodilator agents

Blood pressure and atrial natriuretic peptides correlate throughout the day (Sothorn et al). 1995;129:907-16

Coronary vascular reactivity is abnormal in patients with Chagas' heart disease (Torres et al). 1995;129:995-1001

Veins

A new transvenous internal cardioverter-defibrillator: implantation technique, complications, and short-term follow-up (Jordaens et al). 1995;129:251-8

Vena cava, superior

Transvenous cardioverter-defibrillator implantation via persistent left superior vena cava (Brooks et al). 1995;129:195-7 (Brief comm.)

Ventricular arrhythmia; see Arrhythmia

Ventricular cardiomyopathy; see Myocardial diseases

Ventricular dysplasia-cardiomyopathy; see Myocardial diseases

Ventricular ejection fraction; see Stroke volume

Ventricular fibrillation

Effects of passive tilt and submaximal exercise on spectral heart rate variability in ventricular fibrillation patients without significant structural heart disease (Fei et al). 1995;129:285-90

Pattern of coronary artery disease in patients with ventricular tachycardia and fibrillation exposed by exercise-induced ischemia (Berntsen et al). 1995;129:733-8

QRS prolongation as an indicator of risk of ischemia-related ventricular tachycardia and fibrillation induced by exercise (Berntsen et al). 1995;129:542-8

Ventricular function; see also Heart ventricle

Bradycardia- and tachycardia-dependent termination of ventricular bigeminy: mechanism of ventricular extrasystoles with fixed coupling (Kinoshita et al). 1995;129:557-64

Diurnal variation of ventricular response to atrial fibrillation in patients with advanced heart failure (Frey et al). 1995;129:58-65

Effects of early enalapril treatment on global and regional wall motion in acute myocardial infarction (Carstensen et al). 1995;129:1101-8

Hemodynamic importance of preserving the normal sequence of ventricular activation in permanent cardiac pacing (Leclercq et al). 1995;129:1133-41

A new transvenous internal cardioverter-defibrillator: implantation technique, complications, and short-term follow-up (Jordaens et al). 1995;129:251-8

Outcome of patients with nonsustained ventricular tachycardia and severely impaired ventricular function who have negative electrophysiologic studies (Hernández et al). 1995;129:492-6

Ventricular function, left

Chronic mitral regurgitation (Jones) (Letter); (Starling) (Reply). 1995;129:1225-7

Echocardiographic left ventricular systolic function and volumes in young adults: distribution and factors influencing variability (Wong et al). 1995;129:571-7

Effects of exercise on plasma level of brain natriuretic peptide in congestive heart failure with and without left ventricular dysfunction (Matsumoto et al). 1995;129:139-45

Intraventricular dispersion of early diastolic filling: a new marker of left ventricular diastolic dysfunction (Yamamoto et al). 1995;129:291-9

Ventricular function, left—Cont'd

Left ventricular morphologic features and function in nonhospitalized cocaine users: a quantitative two-dimensional echocardiographic study (Eisenberg et al). 1995;129:941-6

Left ventricular performance during exercise testing in patients with silent and symptomatic myocardial ischemia (Matsubara et al). 1995;129:459-64

Recovery of left ventricular function in acute nonischemic congestive cardiomyopathy (Cross et al). 1995;129:24-30

Relation between diastolic left ventricular function and myocardial blood volume during adenosine-induced coronary hyperemia (Ren et al). 1995;129:696-702

Reversibility of severe left ventricular dysfunction in patients with subarachnoid hemorrhage (Wells et al). 1995;129:409-12 (Brief comm.)

Serial changes in left ventricular function after coronary artery bypass: implications in viability assessment (Ghods et al). 1995;129:20-3

Ventricular function, right

Interventricular septum and right ventricular function (Danchin) (Letter); (Nakamura et al) (Reply). 1995;129:1227

Ventricular myocytes; see Heart ventricle**Ventricular pressure; see Blood pressure****Ventricular septal defects; see Heart septal defects, ventricular****Ventricular tachycardia; see Tachycardia, ventricular****Ventricular volume; see Cardiac volume****Videotape recording**

Coronary arteriography for quantitative analysis: experimental and clinical comparison of cinefilm and video recordings (Ozaki et al). 1995;129:471-5

W**Wall motion; see Ventricular function****Women**

Attitudes of women toward hormone therapy and prevention of heart disease (Pilote and Hlatky). 1995;129:1237-8 (Editorial)

Significance of silent myocardial ischemia during exercise testing in women: report from the Coronary Artery Surgery Study (Weiner et al). 1995;129:465-70

Wounds, nonpenetrating

Isolated mitral valve rupture caused by nonpenetrating trauma: recognition by transesophageal echocardiography (Pérez de Prado et al). 1995;129:1032-4 (Brief comm.)
